ultra air®

- Premium hybrid material
- High performance flexibility, even in extreme cold
- Lightweight enhanced maneuvering
- Lays flat, kink resistant under pressure
- Premium bend restrictors to extend hose life
- Temperature range: -40°F to +150°F
- Three year warranty

WARNING: KEEP OUT OF REACH OF CHILDREN. This product is designed for use on regulated compressed air lines or on air compressors where pressure does not exceed 300 PSI. Do not exceed the pressure limitation of the hose and/or air operated devices being used. Failure to follow these specifications and directions exactly may result in personal injury and/or property damage.

RUBBER AIR HOSE

Amflo®

Rubber Air Hose

Amflo® Rubber Air Hose is ideal for rugged applications where hoses may be dragged over concrete or other rough surfaces. The rubber construction offers very good cold weather flexibility and coils easily for storage. It is ideal for garage, shop, industry, home and many other uses. Temperature Range: -20°F to +165°F. Three year warranty.

| Part No. | Hose Diam. | Hose Length | Working Pressure | Hose Color | Fittings Size | Extras |

Heavy Duty Rubber Air Hose

Amflo Heavy Duty Rubber Hose is ideal for the most extreme applications where air hoses are needed. Its heavy duty construction is perfect when it must be dragged over concrete or rough surfaces. The heavy duty rubber offers very good cold weather flexibility and allows for easy coiling when finished. Sunlight and chemicals have little to no effect on this heavy duty hose making it perfect for garage, shop, industry, home and many other uses. Best of all, it's Made in the USA! Temperature Range: -40°F to +210°F. Three year warranty.

POLYURETHANE & PVC AIR HOSE

Amflo®

Features Field Repairable Ends

Only on 14-50 & 14-100

Polyurethane Air Hose

The light weight of polyurethane hose makes it ideal for applications where dragging a heavy hose is an issue, like roofing. The smooth, non-marring finish also makes it ideal for indoor trim work where scratching surfaces could create damage. Maintains very good cold weather flexibility. Swivel end fittings reduce hose twist and heavy-duty molded bend restrictors reduce kinking and help increase the life of the hose.

Temperature Range: -30°F to +150°F. Four year warranty.

WARNING: KEEP OUT OF REACH OF CHILDREN. This product is designed for use on regulated compressed air lines or on air compressors where pressure does not exceed 300 PSI. Do not exceed the pressure limitation of the hose and/or air operated devices being used. Failure to follow these specifications and directions exactly may result in personal injury and/or property damage.

RECOIL AIR HOSES

Amflo®

Nylon Recoil Air Hose

Nylon Recoil Hose retains its self-coiling properties and stores itself when finished. Can be used with all air-powered equipment on the job site and in garages, plants and service stations. The swivel end fittings reduce hose twist. Temperature Range: +32°F to +120°F. One year warranty.

| Part No. | Hose Diam. | Hose Length | Working Pressure | Hose Color | Fittings Size | Extras |
|------------------|------------|-------------|------------------|------------|---------------|-----------------|

Polyurethane Recoil Air Hose

Polyurethane Recoil Hose retains its self-coiling properties and stores itself when finished. Can be used with all air-powered equipment on the job site and in garages, plants and service stations. The swivel end fittings reduce hose twist. Bend restrictors reduce kinking and increase the life of the hose. The soft polyurethane finish is less likely to scratch surfaces. Temperature Range: -30°F to +150°F. Three year warranty.

| Part No. | Hose Diam. | Hose Length | Working Pressure | Hose Color | Fittings Size | Extras |
|-------------------|------------|-------------|------------------|------------|---------------|-----------------------------------|

| 24-50E-RET | 1/4" | 50' | 120 PSI | Blue | 1/4" MNPT | Swivel Fittings, Bend Restrictors |

WARNING: KEEP OUT OF REACH OF CHILDREN. This product is designed for use on regulated compressed air lines or on air compressors where pressure does not exceed 300 PSI. Do not exceed the pressure limitation of the hose and/or air operated devices being used. Failure to follow these specifications and directions exactly may result in personal injury and/or property damage.

BULK & LEAD-IN AIR HOSES

Amflo®

Bulk Air Hose

| Part No. | Hose Diam. | Hose Length | Working Pressure | Hose Color | Fittings Size | Extras |
|----------------------------------|------------|-------------|------------------|------------|---------------|--------|
| Rubber Signal Bell Tubing | | | | | | |
| 494-100 | 3/8" | 100' | 200 PSI | Black | None | N/A |
| 494-500 | 3/8" | 500' | 200 PSI | Black | None | N/A |
| Rubber Air Hose | | | | | | |
| 514-500 | 3/8" | 500' | 300 PSI | Red | None | N/A |

Lead-In Air Hose

Lead-In Air Hoses absorb the vibrations and pulsations from air compressors and air impact tools, providing longer life for the balance of the pneumatic system. Ball swivels allow for greater flexibility and bend restrictors prevent the hose from weakening and breaking after frequent sharp bends.

| Part No. | Hose Diam. | Hose Length | Working Pressure | Hose Color | Fittings Size | Extras |
|---------------------------------------|------------|-------------|------------------|------------|-----------------------|-----------------------------|

Automatic Enclosed Air Hose Reels

From DIYers to heavy-duty professionals, the Amflo® brand of automatic enclosed air hose reels has something for everyone. All reels feature impact resistant housing, guided automatic hose rewind system and a 180° steel swivel mounting bracket. The ability to be mounted vertically or horizontally allows them to fit any workspace configuration. Give consumers what they need with our Automatic Enclosed Air Hose Reels.

Enclosed Ultra PRO® Hybrid Air Hose Reels

Additional features for 538HR-RET, 541HR-RET, 543HR-RET, and 546HR-RET:

- Stop anywhere braking system for added convenience.
- Slow rewind spring helps retract air hose at a slower rate than most reels.
- 546HR-RET features the above, in addition to a carrying handle and quick disconnect bracket for maximum portability.

Automatic Open Face Air Hose Steel Reels

Amflo open face hose reels have an all steel construction for industrial versatility. They feature a spring-wound auto-rewind mechanism and a locking ratchet brake. Can be mounted vertically or horizontally. Guide arm is adjustable to dispense hose at various angles. Ultra PRO open face reels come with robust bend restrictors for extended hose life. These open face hose reels are perfect for your heavy duty and industrial consumers.

AUTOMATIC / MANUAL REELS

Amflo®

2n1 Automatic Open Face Steel Reel

The Amflo® 2n1 steel reel combines an air hose and an electrical cord operating as two independent self-retracting assemblies, perfect for jobs that require pneumatic and electrical power feeds. The all steel construction is great for industrial versatility and can be mounted vertically or horizontally. Features spring-wound auto rewind and locking ratchet brake. Guide arm is adjustable to dispense hose at various angles. Equipped with built-in resettable circuit breaker and lighted triple socket for easy power recognition and multi-tool use capabilities. Perfect for any garage, professional or DIY.

Manual Air Hose Reels

Amflo manual hose reels feature all steel construction, comfortable handle grips and a spring tension brake to prevent accidental unwinding. Standard manual reels can be mounted horizontally or vertically and are available in three configurations – assembled with hose and assembled or unassembled without hose to take up less space on the retail shelf. The dual output manual reel sits on the ground or can be conveniently nailed to the roof for maximum maneuverability. It is perfect for the construction site as it comes with 75' of lightweight polyurethane air hose. Manual hose reels are perfect for the economical shopper in the market for an air hose reel.

INNOVATIVE PACKAGE DESIGN

TRU-FLATE® **Amflo®**

Tru-Flate® Packaging

- Tru-Flate offers innovative, patented die-cut packaging to aid in the selection process.

- Plug outline template built into card to compare profiles
- Reduces confusion for end-user
- Patent number 9169053

- Tire repair and air accessories packages are coordinated to give a strong, unmistakable family appearance at retail.

Coupler / Plug Key Ring

These sturdy key rings are among the finest available. Similar to 1/8" pneumatic coupler and plug sets with steel construction and heavy nickel plating. Will provide years of reliable service and security.

900-10 10/box.

900 Bulk.100/box.

Coupler / Plug Identifier

Makes coupler and plug sales easy. Gives countermen a "surefire" way to quickly and accurately identify the proper 1/4" series plug for their coupler. Metal bar has each of four basic design plugs permanently fastened to the bar. Color-coded plugs on bar match correct coupler and plug package. Each design name is stamped in bar. Complete with handy hanger strap.

96-901 Coupler Test Bar. 1/bag.

96-902 Plug Test Bar. 1/bag.

How to Identify Interchange Designs

Interchangeability of pneumatic couplings is determined by PLUG DESIGN. Learn to identify the basic plug types, and coupler and plug interchange will become easy. There are several different designs currently used in the market with I/M being the most popular at about 70% of couplers and plugs sold.

Automotive Tru-Flate Design 12/13-100 Series

This design is easily recognized because it has the shortest plug pilot in the industry; however, it has the widest metal section between the ball groove and the pilot. In addition, the sealing surface on the end of the plug is wider than other "interchange" designs. This design provides better sealing characteristics and longer seal life.

Industrial Milton Design 12/13-200 Series

This design has been adopted by many coupler manufacturers, including Milton, Hansen, ARO, Lincoln and Schrader. It will work with either "sleeve" type or "push" type couplers. There are several different designs currently used in the market with I/M being the most popular at about 70% of couplers and plugs sold.

Automotive ARO Design 12/13-300 Series

This design is characteristic of the ARO 210 series, and requires a coupler of proper matching design. Although similar in appearance to the "Industrial/Milton Interchange" design, it can be easily distinguished because its pilot is 1/8" longer and its ball groove is nearly round.

Lincoln Design 12/13-400 Series

The "Lincoln long-stem" design is the most easily identified design. The long 3/4" pilot is so distinctive it cannot be confused with other designs. It will only mate with couplers of matching design and size.

HI FLO Design 12/13-900 Series

The HI FLO design has a similar profile to the I/M design, but has a much wider opening to allow almost three times the air flow. HI FLO plugs will not work with any other coupler design, but the HI FLO couplers will work with a small leak with some of the standard coupler designs if the need should arise.

How to Interchange Couplers and Plugs

Design Selection

Similar name designs, whether manufactured by Amflo, Tru-Flate or a competitor, are interchangeable. NOTE: Designs are not interchangeable with other designs.

Size Selection

There are three BODY SERIES sizes – Standard 1/4" and Heavy Duty 3/8" and 1/2". To interchange, the coupler and plug must have the same body size.

SCHRADER STANDARD

CFM FLOW REQUIREMENTS

TRU-FLATE® **Amflo®**

CHOOSE THE RIGHT COUPLER & PLUG FOR YOUR APPLICATION

Standard Couplers & Plugs

- Steel is suitable for indoor use or in dry conditions
- Brass is suitable for indoor or outdoor use
 - Resists rust & corrosion in damp conditions

Best Used For:

- DIY / Homeowner
 - Shop inflation
 - Air guns for cleanup of floors / workbenches

Tru-Match® Couplers & Plugs

- Aluminum is suitable for indoor or outdoor use
- Perfect for consumers who need to keep air lines separated

Best Used For:

- DIY / Homeowner / Semi-Professional
 - Air tools & nailers
 - Paint guns & sanders

HI FLO® Couplers & Plugs

- Aluminum is suitable for indoor or outdoor use
- Perfect for consumers who require a higher amount of air flow

Best Used For:

- Professionals / Shops
 - Air tools & nailers
 - Air guns
 - Paint & body tools

* all CFM flow values were tested using 90 PSI

Plews Accidental Disconnect Protection

All Amflo and Tru-Flate couplers come with a sleeve guard that reduces the potential for accidental disconnect caused by snags or tight work spaces. It also has the added benefit of protecting the sleeve under the toughest working conditions.

Of Their
Air Tools!*

Allow consumers to replace their fittings, not their hose.

TRU-FLATE®

TRU-MATCH® COUPLERS & PLUGS

- Push-to-connect design for quick easy connections.
- Couplers allow increased air flow compared to 25 CFM standard couplers.
- Durable lightweight T6 aluminum construction.
- Color-code lubricated vs dry lines to prevent cross contamination.

PLUGS & COUPLERS

TRU-FLATE® **Amflo®**

I/M Industrial Design

Adopted by most coupler manufacturers, this plug design is considered the industrial standard. It can be identified by the 3/16" pilot and flat bottom V-shaped ball groove. Conforms to ANSI (NFPA) T3.20.14-1990 dimensions. Couplers are available in both standard and push-to-connect style sleeve.

PLUGS & COUPLERS

TRU-FLATE® **Amflo®**

T-Style® Design

The Tru-Flate Design Plug is recognized by the extremely short pilot; however, it has the widest metal section between the groove and the pilot. The sealing surface on the end of the plug is wider than other interchanges, resulting in better sealing and longer seal life. The Tru-Flate Design Coupler utilizes the tubular valve which supports the seal and allows more air flow at lower pressure drops than most competitive couplers. Couplers are available in both standard and push-to-connect style sleeve.

WARNING: Due to their large size, these couplers should not be connected or disconnected if the line pressure exceeds 40 PSI.

WARNING: Couplers and plugs are intended for use on compressed air lines only. All have maximum rated working pressure of 300 PSI.

PLUGS & COUPLERS

TRU-FLATE® **Amflo®**

A-Style Design

This design is identified by a 5/16" pilot and ball groove which is nearly round. It is similar in appearance to the Industrial interchange and care must be taken to correctly identify it. Couplers are available in both standard and push-to-connect style sleeve.

HI FLO® Design

HI FLO® couplers and plugs are specifically designed for use in HVLP (High Volume, Low Pressure) situations, such as paint spray guns, abrasive blast cabinets and high cfm air tools. HI FLO® couplers and plugs can allow up to 70+ CFM of air flow, almost three times the air flow of standard couplers and plugs.

Safety Design

Safety couplers are made from light-weight, corrosion resistant composite and aluminum materials making them safer to use. The push button safety release eliminates air pressure and blow back when connecting and disconnecting air hoses and tools. Safety couplers are designed to be used with I/M and T style plugs. Available in black, hi-vis orange for added safety.

- Couplers can be used with I/M and T style plugs.
- Push-Button 2-step safety design. Push once to vent the air line, push again to release the plug.
- Composite body is perfect for use with paint guns.

INFLATOR GAUGES

TRU-FLATE® **Amflo®**

• Tru-Flate • Amflo

Standard Duty Inflator Gauge

Zinc die cast housing with zinc plated steel lever. Swivel dual foot chuck and replaceable brass cartridge. Complete with bleeder valve to easily release tire over inflation. Calibrated 20–120 PSI in 2 PSI increments.

With 12" Hose and Dual Foot Chuck.

101TF Carded. 10/master.

Deluxe Inflator Gauges

Rugged zinc casting, with rubber bumper guard to protect against damage if dropped, and easy-to-read recessed sight glass. Replaceable valve assembly and gauging cartridge. Calibrated 10–120 PSI in 2 lb. steps.

With 12" Hose and Dual Foot Chuck.

17-850 Carded. 10/master.

With 24" Hose and Clip-On Chuck.

17-855 1/box.

Deluxe Straight-On Inflator Gauges *with Bleeder Valve*

Same high quality inflator gauge but with a convenient bleeder valve to enable the operator to "zero" the gauge and release pressure during filling. Allows the operator to stand away from the tire being inflated and thus meets OSHA regulation No. 1910.177.

With 36" Hose and Straight-On Dual Foot Chuck.

17-860 1/box.

NOTE: Because of the internal construction of the Straight-On Dual Foot Chucks, they can only be installed on Tru-Flate® inflator gauges with bleeder valves.

Bayonet Style Inflator Gauges

Features rubber hose and chrome plated castings with brass internal parts for long life. Solid brass bar is calibrated 10–90 PSI in 2 PSI increments.

With 12" Hose and Straight-On Tapered Chuck.

17-865 Carded. 5/master. **150E-RET** Carded. 5/master.

150 1/box.

150-50 Bulk. 50/box.

With 12" Hose and Swivel Dual Foot Chuck.

17-863 1/box.

INFLATOR GAUGES

TRU-FLATE®

Amflo®

• Tru-Flate • Amflo

Heavy Duty Inflator Gauges

Heavy chrome plated castings with protective sleeve over dial tube. Plated steel handle is riveted to body. Solid brass bar is calibrated 10 to 120 PSI in 2 PSI increments.

Highly Accurate Dial Inflator

Easy-to-read dial is calibrated 0 to 160 PSI. Tapered chuck and swivel dual foot make getting into tight spots easy. A must for racing tires and truck fleets.

135 1/box.

Straight-On Tapered Chuck Inflator with 12" hose.

100D Carded. 1/master.

Swivel Dual Foot Chuck Inflator with 12" hose

For use on vehicles with smaller dual wheels.

101D Carded. 1/master.

Straight-On Dual Foot Chuck Inflator

Durable black epoxy finish.

101HD 1/box.

Master Air Inflator Gauges

Inflates and checks pressure of passenger cars, motorcycles and trucks. Has a five ft. hose length. Dual calibrated 10 to 170 PSI and .7 to 12 bar. Calibrated in 2 lb. increments.

3910S Master Air Inflator Gauge with standard bore. 1/box.

3912 Master Air Inflator Gauge with 1/4" MNPT fitting. 1/box.

Digital Inflator Gauges

Users can watch the highly accurate back-lit digital read-outs while inflating or deflating for more precise pressure. The 17-878 is complete with air bleeder valve, 13.5" hose and straight-on dual foot chuck. The 17-877 has a robust pistol grip handle and two stage trigger for inflation and deflation. Complete with 20" swivel hose with bend restrictor and clip-on chuck. Rubber covers protect units in the event of a drop. Measures in PSI, bar, kPa and kgF/cm².

17-878 Carded. 5/master. 0–200 PSI.

17-877 Carded. 1/master. 0–174 PSI.

Inflator Gauge Components (not shown)

112 12" Hose with Straight-On Chuck 1/box.

113 12" Hose with Dual Foot Chuck. 1/box.

Converts 3/8–24 thread hose to 1/4–18 NPT and 1/8–27 NPT.

150LW-50 Bayonet Inflator Gauge Body. 50/box.

100LW Heavy Duty Inflator Gauge Body. 1/box.

135DG Replacement Dial Gauge. For Amflo 135. 1/box.

153 Dial Bar for Bayonet Gauge. 1/bag.

163 Replacement Inflator Gauge Valve. For Amflo 150 series. 1/box.

Air Line Chucks without Shut-Off for Inflator Gauges only

Do not use on direct air lines where a shut-off valve is required.

Snap-On Chuck Clip

Converts any single foot chuck to a clip-on chuck. Used with both Direct Lines and Shut-offs.

17-355 Carded. 10/master.

Mini Lock-On Air Chuck with 1/4" Hose Barb

Newer "mini-style" is standard equipment on rim clamp (RC) tire changers.

17-365 Carded. 10/master.

Single Ball Foot Chuck

1/4" FNPT.

17-722 10/box.

Dual Foot Chuck

1/4" FNPT

107 1/box.

"Grip Tite" Chuck

1/4" FNPT. Straight-on air line chuck. Snaps onto standard tire valve and stays put until disconnected.

17-726 1/bag.

Straight-On Chuck

1/4" FNPT, with universal adapter.

127 10/box.

Straight-On Chuck with 1/4" Hose Barb

106-100 Bulk. 100/box.

Clip-On Chuck

1/4" FNPT, with universal adapter.

17-730 10/box.

Straight Lock-On Chuck

1/4" FNPT. Flow-through.

17-732 10/box.

Angled Chuck

1/4" FNPT.

105 10/box.

Air Line Chucks with Shut-Off not for Inflator Gauge use

Direct Air Line Chucks have a built-in shut-off valve and therefore cannot be used on inflator gauges. Use when air supply lines come directly from the compressor with no other valve in the line. 1/4" female NPT. 150 PSI maximum air line pressure.

Ball Foot Chucks

17-351 Carded. 10/master. **104** 10/box.

Clip-On Chuck

HI FLO® Blowguns

Tru-Flate HI FLO® Blowguns combine ergonomics with power for an enhanced experience. Durable lightweight aluminum bodies and easy ergonomic grip provides maximum comfort and control, reducing operator fatigue. Complete with handy hang-up hook for easy storage. No tools needed for modular accessories that help with reach, protection and increased air flow. OSHA compliant tips meet or exceed standards. All HI FLO® Blowguns are equipped with 1/4" FNPT threads.

TF1 HI FLO® Blowgun – 40 CFM

18-607 Carded. 10/master. Includes Safety Nozzle.
18-611 Carded. 10/master. Includes Safety Nozzle and Rubber Tip. *(not shown)*
18-609 Carded. 10/master. Includes Safety Nozzle, Rubber Tip and (2) 12" Extensions. *(not shown)*
18-613 Carded. 10/master. Includes Safety Nozzle, Rubber Tip, Quiet High Flow Tip, (2) 6" Extensions, (3) Inflation Needles and Tip Adapter.
18-623 Carded. 10/master. Includes Safety Nozzle, Rubber Tip, HI FLO® Female Coupler, HI FLO® Female Plug and (2) HI FLO® Male Plugs.

TF3 HI FLO® Blowgun – 50 CFM with larger body and variable trigger for controlled flow.

18-608 Carded. 5/master. Includes Safety Nozzle. *(not shown)*
18-612 Carded. 5/master. Includes Safety Nozzle and Rubber Tip.

HI FLO® Blowgun accessories & what they're used for

All HI FLO® Blowgun accessories fit both the TF1 & TF3 Blowguns

| Ref. | Description | Used For |
|------|--|---|
| A | Rubber Tip | Inflate air toys, air mattress, and other inflatables that have round inflation valve / plug. |
| B | Quiet High Flow Tip, OSHA compliant (1910.95) (1910.242) | Use in workshop to blow dirt / dust. |
| C | Safety Nozzle, OSHA compliant (1910.242) | Use in workshop to blow dirt / dust. |
| D | Tri-Thrust Tip | Use in workshop to blow dirt / dust, blows a wider area than some of the other tips. |
| E | Tip Adapter | Use with the Inflator Needles. |
| F | Chip Shield | Use with blowgun extensions to shield debris blowback and splatter. |
| G | Inflator Needles | Use to inflate sports equipment and in tight areas or cracks. |
| H | 6" Extension | Use with any of the HI FLO® tips or nozzles when a longer reach is required. |
| I | 12" Extension | Use with any of the HI FLO® tips or nozzles when a longer reach is required. |

BLOWGUNS

TRU-FLATE® **Amflo®**

• Tru-Flate • Amflo

Standard Blowguns

All have 1/4" female NPT inlet – allows full line pressure to be used.

IMPORTANT: To comply with OSHA regulations, Standard Blowguns must be used on a regulated air line with a pressure setting not to exceed 30 PSI.

Standard Blowgun

Comfortable thumb lever valve control with hang hook. One-piece nozzle.

18-203 Carded. 5/master. **200** 1/box.
200-100 Bulk. 100/box.

Standard Blowgun with Rubber Tip

Oil resistant, soft replaceable rubber tip. Will not mar delicate surfaces.

Gives a leak-proof seal against oil passages, fuel lines, etc., when air pressure is needed for cleaning.

18-207 Carded. 5/master. **201** 1/box.

Flex-Tipped Blowgun

No handles, levers or buttons. Simply flex rubber nozzle to open.

Release, and air shuts off automatically.

211 10/box.
211-100 Bulk. 100/box.

Siphon Spray Blowgun

Combination of a Standard Blowgun and the Siphon Spray Nozzle.

Barbed siphon inlet fits 1/4" ID hose or tubing. Use for spray-cleaning engines, applying protective coatings, etc.

18-221 Carded. 5/master.

Pistol-Grip Spray Cleaner

Air-operated siphon cleaning gun handles most cleaning fluids. Ideal for mixing water or soap solutions for pressure cleaning of parts, engines, machinery, floors and walls. Dual air inlet allows handy overhead or under-bench connection. Includes 8' of clear vinyl tubing with a weighted strainer screen and fluid control valve. 10" spray nozzle.

18-225 Carded. 5/master.

Deluxe Blowgun Kit

All purpose blowgun kit with 4 interchangeable nozzles for cleaning and inflating. Perfect for blowing sawdust and grass clippings, drying surfaces or inflating balls, rafts and air mattresses. Complete with Standard Nozzle, Rubber Tip Nozzle, Tapered Inflator Nozzle and Ball Inflator Needle – all in a convenient see-through plastic storage case.

18-241 Carded. 5/master.

• Tru-Flate • Amflo

Standard Blowguns (cont.)

Palm Style Blowgun Kit

Lightweight, ergonomic design blowgun fits comfortably in the palm of your hand. Kit includes 6 interchangeable nozzles, 1/4" air plug and a 12" hose and air chuck assembly.

18-247 Carded. 5/master.

Pistol-Grip Blowgun

Lightweight plastic pistol-grip blowgun with ergonomic design reduces user fatigue. Brass valving and bushing ensure long life.

18-325 Carded. 5/master.

Heavy Duty Angle Tip Blowgun

Heavy duty construction and rubber tip. Excellent for blowing out automatic transmissions.

205ATD Carded. 5/master.

Heavy Duty Blowgun

Use in construction and other rugged applications.

Standard 1/8" NPT nozzle thread.

205D Carded. 5/master.

Booster Blowgun

Delivers extra wide spray pattern. Additional air is drawn through holes around nozzle.

226 1/box.

Safety Blowguns

Improved nozzle gives greatly increased performance and yet still meets OSHA regulation 100-1 for 30 PSI "dead head" pressure. Vented nozzle relieves compressed air should nozzle become plugged or obstructed. Heavy duty die-cast body with hang-up hook and 1/4" NPT female inlet.

Button Type Inlet pressure 150 PSI.

18-231 Carded. 5/master.

Lever Type Inlet pressure 150 PSI.

18-233 Carded. 5/master. **204-30** 1/box.

Tamper-Proof Lever Type. Safety nozzle cannot be removed from end.

18-237 Carded. 5/master. **204-30A** 1/box.

Safety Blowguns *cont.*

Pocket Size Lever Type Inlet pressure 150 PSI.

18-319 Carded. 5/master.

18-302 Carded. 10/master. With 4" Extension.

Clip-On Safety Blowgun. Chuck style, 8-1/2".

Converts standard ball foot air chuck into a blowgun.

18-143 10/box.

High Volume "Venturi" Action

Delivers more air-to-speed cleaning and drying while using less compressed air. Special venturi nozzle increases air flow to part, yet meets OSHA regulation 100-1. Convenient hang-up hook, comfortable lever and 1/4" NPT female inlet. Inlet pressure 150 PSI.

18-208 1/box.

Safety Blowgun with Rubber Tip & Safety Nozzle

Oil resistant, soft rubber tip seals tight and won't mar finishes. Ideal for cleaning fuel lines, air passages and carburetors. Limits air pressure to 30 PSI, meeting OSHA safety standards. Convenient hang-up hook.

1/4" NPT female inlet. Inlet pressure 150 PSI.

18-215 Carded. 5/master.

Safety Extension Blowgun with Rubber Tip & Safety Nozzle

These multi-function, long reach blowguns come with both a safety nozzle and rubber tip. End of blowgun is bent for hard-to-reach areas.

18-217 With 2' extension. 1/bag. 5/master.

18-219 With 4' extension. 1/bag. 5/master.

Adjustable Safety Pocket Blowguns

A must for home, shop or garage use. Quick and easy to use – just attach to air line coupler and twist knurled nozzle. For 1/4" coupler bodies. Meets OSHA regulation 100-1. Complete with handy pocket clip.

T-Style Design

18-601 Carded. 10/master.

I/M Style Design

18-603 Carded. 10/master.

21-709 1/4" Safety Valve 150 PSI. Carded. 5/master.

Safety Valve

AIR LINE HOOK-UP HINTS

TRU-FLATE® **Amflo®**

LEADER HOSE

A short length of leader hose is recommended on a paint spray gun to keep the coupler and plug from scratching a painted surface.

Proper usage of compressed air power calls for filters to clean the air, regulators to control pressure, gauges to show pressure and lubricators to protect power tools. Air line systems also need hose and tubing to provide flexibility at the points of use. Couplers, plugs and fittings are the components that complete the systems for quick, easy, secure fastening to paint spray guns, blowguns, inflator gauges, chucks, power tools and pneumatic tire repair stands. Amflo® and Tru-Flate® components offer reliable, low-cost, readily available, proven ways to hook up your air line system.

SAFETY BLOWGUNS

To comply with OSHA requirements, blowguns used on UNREGULATED air lines must be capable of restricting nozzle pressure to 30 PSI or less when dead-ended.

DIRECT AIR LINE CHUCKS

AIR HOSE

DESICCANT AIR DRYERS

Deliver extremely clean, dry air to pneumatic system components. The use of desiccants will optimize the quality of compressed air to improve performance of air tools and ensure oil-free, dry air to auto paint spray equipment.

INFLATOR GAUGES

INLINE TOOL FILTER

AIR LINE FILTERS

ALWAYS LOCATE YOUR FILTER AS FAR FROM THE COMPRESSOR AS POSSIBLE IN ORDER TO TRAP AS MUCH CONDENSATION AS POSSIBLE.

Amflo and Tru-Flate two-stage filters remove liquids, oil, water and large dust particles by centrifugal force, and small dust particles down to 40 microns by a porous element filter. Air line filters are vital to protect expensive air powered tools to keep them operating longer with greater efficiency.

TIRE HARDWARE

PRESSURE GAUGES

TANK VALVES

FILTERS, REGULATORS & LUBRICATORS

TRU-FLATE®

• Tru-Plate

Filter / Regulator Combinations (Piggyback)

Accurate pressure regulation with maximum water and dirt separation, provided in a single, compact unit. The filter significantly increases the life of expensive equipment, such as air line tools, valves, cylinders and motors. The regulator employs a solid piston, which resists rupture, cracking or tearing under pressure or high cycle rates. Combination Filter/Regulators have 2 gauge ports and come complete with filter element, pressure gauge and locking knob adjustment. Maximum pressure (polycarbonate bowls): 150 PSI at 125° F primary, 2 to 125 PSI secondary. Maximum pressure (metal bowls): 250 PSI at 175° F primary, 5 to 250 PSI secondary. Temperature range: -10° F to +175° F.

| Part No. | Series | Quantity | Port | SCFM† | Drain Type | Microns | Capacity | Bowl Type | Height (in.) |

*Retail clamshell package

†Standard cubic feet per minute with 100 PSI inlet pressure, 80 PSI no flow secondary setting and 10 PSI pressure drop.

Air Line Filters

Tru-Plate® Air Line Filters are used for all air line applications where efficient filtration is required. Filtration removes airborne solid contaminants, pipe scale, rust, condensate, etc., which may cause wear or failure of pneumatic components. Large filter element surface gives low pressure drop and long element life. The Mini series of air line filters offers a higher degree of filtration. All filters are complete with filter element and either manual or automatic drains. Maximum pressure: 150 PSI at 125° F with polycarbonate bowl and 250 PSI at 175° F with metal bowl. Temperature range: -10° F to +175° F.

FILTERS, REGULATORS & LUBRICATORS

TRU-FLATE®

- Tru-Flate

Air Line Regulators

Tru-Flate® Air Line Regulators employ a solid piston and balanced poppet for excellent performance and longer life. The solid piston design is reliable for a broad range of demanding applications and is impervious to a wide range of lubricating oils and greases. Unlike diaphragms, the solid piston resists rupture, cracking or tearing under pressure, constant flexing or high cycle rates. It is impervious to most chemicals, provides accurate control and assures smooth, uninterrupted operation. Tru-Flate Air Line Regulators have fast reverse flow capabilities, allowing installation where dual pressures are required. Feature 2 gauge ports and include pressure gauge and non-rising, locking knob adjustment. Maximum pressure: 250 PSI primary, 2 to 125 PSI secondary.

| Part No. | Series | Quantity | Port | SCFM† | Height (in.) |

†Standard cubic feet per minute with 100 PSI inlet pressure with 5 PSI pressure drop.

Air Line Lubricators

Tru-Flate Air Line Lubricators are designed to provide proportional delivery of lubricating oil over a wide range of air flows. Ideal for most general applications. Externally adjustable with transparent sight dome for 360° visibility. Lubricator should be mounted as close as possible to application to ensure most effective distribution of oil to pneumatic components. Suggested lubricant: Petroleum-based oil of 100 to 200 SSU viscosity at 100° F and an aniline point greater than 200° F.

Except for the Mini series, Tru-Flate Air Line Lubricators may be filled while the system is under pressure. Maximum pressure: 150 PSI at 125° F with polycarbonate bowl.

Temperature range: -10° F to +175° F. For pressures up to 250 PSI at 175° F, a metal replacement bowl must be ordered and installed separately. Metal bowls with sight glass are standard for the Hi-Flow Series.

| Part No. | Series | Quantity | Port | SCFM† | Height (in.) | Bowl Type | Height (in.) |
|------------------------|----------|----------|------|-------|--------------|-----------|--------------|
| 24-542 | Mini | 1/box | 1/4" | 11 | 1 oz. | Poly | 5.2 |
| 24-501 | Compact | 1/box | 1/4" | 20 | 5 oz. | Poly | 7.4 |
| 24-511 | Compact | 1/box | 3/8" | 35 | 5 oz. | Poly | 7.4 |
| 24-521 | Standard | 1/box | 1/2" | 85 | 8 oz. | Poly | 8.9 |
| 24-531 | Standard | 1/box | 3/4" | 90 | 8 oz. | Poly | 8.9 |
| 24-551 | Hi-Flow | 1/box | 1" | 260 | 18 oz. | Metal | 11.8 |

Warning: Oils with adhesives, compounded oils containing solvents, graphite, detergents or synthetic oils must not be used.

†Standard cubic feet per minute at 10 PSI with 5 PSI pressure drop.

IN-LINE AIR TOOLS

TRU-FLATE® **Amflo®**

41-101

41-135

41-145

•Tru-Flate •Amflo

In-Line Air Tool Oiler

A compact oiler that fastens directly to the air tool. Precisely meters proper amount of oil to the tool only when the tool is in use. No adjustments necessary. 1/4" male NPT outlet, 1/4" female NPT inlet. Use on all air impact guns, air wrenches, body shop air tools and pneumatic hammers requiring 1/4" air lines. Note: Never use motor oil in pneumatic tool. **Prevents "burn-out" of expensive pneumatic tools, stops rust and increases torque up to 25%.**

41-101 Carded. 10/master.

In-Line Air Flow Regulator

Controls in-line air pressure for paint spray guns or other pneumatic tools. Helps keep air flow at exact operating pressures. Use where precise air flow is desired. Compact, lightweight design with gauge, allows for easy "on the tool" air adjustment.

41-135 Carded. 5/master. 0-160 PSI

At-Hand® In-Line Air Tool Regulator

Controls in-line air pressure for paint spray guns or other pneumatic tools. Helps keep air flow at exact operating pressures. Use where precise air flow is desired. Compact, lightweight design with gauge, allows for easy "on the tool" air adjustment.

41-143 Clamshell. 5/master. Low pressure 10-60 PSI

41-145 Clamshell. 5/master. High pressure 40-140 PSI

*Control air pressure
right at the tool!*

•Tru-Plate •Amflo

Air Regulator with Gauge

Regulates air pressure from compressor to match the recommended air pressure required by air tool. 1/4" female NPT inlet/outlet ports. Install at any angle.

41-155 Clamshell. 5/master. High pressure 200 PSI

41-155

Tamperproof In-Line Regulator

Tamperproof fixed pressure setting preset at the factory – can be installed with safety in mind. Balanced poppet design will not chatter or drift, so outlet setting will not change even when inlet pressure varies. High flow capability can be restricted for low flow requirements. Streamlined low-profile shape for neat installation and space saving requirements. Easy to install, no brackets or special tools required. Regulator will function in any position. High-strength aluminum alloy construction, anodized for corrosion protection and color coded.

1/4" NPTF. Regulator inlet rating 400 PSI. Unit only delivers line pressure. Delivery pressure is a function of flow.

2112 90 PSI. Red band. 1/box.

2113 100 PSI. Silver band. 1/box.

2114 110 PSI. Brass band. 1/box.

2112

2113

2114

In-Line Air Tool Filter

A compact and extremely effective accessory for all air-operated shop tools and equipment, such as inflator gauges, impact wrenches, spray guns, air powered sanders, etc. Protects them against rust, pipe scale and dirt. 1/4" female NPT inlet, 1/4" male NPT outlet. Sintered bronze filter element.

Maximum working pressure 500 PSI. **Reduces downtime, prevents expensive repairs and prolongs the life of pneumatic tools.**

41-150 Carded. 10/master.

41-150

In-Line Desiccant Dryer

The In-Line Desiccant Filter/Dryer removes dirt, dust, water and oil from air lines by using a non-toxic, moisture-absorbing silica gel to filter contaminants. Easily installs on any 1/4" NPT air system and is rated up to 125 PSI.

41-103 Carded. 4/master.

41-103

FILTERS, REGULATORS & LUBRICATORS

Amflo®

• Amflo

Filter / Regulator Combinations (Piggyback)

Accurate pressure regulation with maximum water and dirt separation, provided in a single, compact unit. The filter significantly increases the life of expensive equipment, such as air line tools, valves, cylinders and motors. The regulator employs a solid piston, which resists rupture, cracking or tearing under pressure or high cycle rates. Combination Filter/Regulators have 2 gauge ports and come complete with filter element and locking knob adjustment. Maximum pressure (polycarbonate bowls): 150 PSI at 125° F primary, 5 to 125 PSI secondary. Maximum pressure (metal bowls): 250 PSI at 175° F primary, 5 to 250 PSI secondary. Temperature range: -10° F to +175° F.

†Standard cubic feet per minute with 100 PSI inlet pressure, 80 PSI no flow secondary setting and 10 PSI pressure drop.

Air Line Filters

Amflo® Air Line Filters are used for all air line applications where efficient filtration is required. Filtration removes airborne solid contaminants, pipe scale, rust, condensate, etc., which may cause wear or failure of pneumatic components. Large filter element surface gives low pressure drop and long element life. The Mini series of air line filters offers a higher degree of filtration. All filters are complete with filter element and either manual or automatic drains. Maximum pressure: 150 PSI at 125° F with polycarbonate bowl and 250 PSI at 175° F with metal bowl. Temperature range: -10° F to +175° F.

19 PC Air Accessory Kit

Perfect for the do-it-yourselfer! 19-piece kit contains all accessories needed to connect and use a tank-mounted air compressor.

- I/M 1/4" Couplers/Plugs for air line hose and air tool connections
- Air Line Chuck for filling tire valves
- 50 PSI Tire Gauge, to check air pressure
- Blowgun Kit with multiple nozzles for general cleaning and drying
- Ball and tapered nozzles for inflating toys and recreational equipment

41-175 Carded. 5/master.

20 PC Air Accessory Kit

Perfect for the do-it-yourselfer! 20-piece kit contains all accessories needed to connect and use a tank-mounted air compressor.

- I/M 1/4" Couplers/Plugs for air line hose and air tool connections
- Ball Foot Chuck & Dual Foot Chuck for filling tire valves
- 50 PSI Tire Gauge, to check air pressure
- Thread Seal Tape
- Blowgun Kit with multiple nozzles for general cleaning and drying
- Ball and tapered nozzles for inflating toys and recreational equipment
- Complete with storage box for added convenience

41-225 Boxed. 4/master.

15 PC Air Accessory Kit

Perfect for the do-it-yourselfer! 15-piece kit includes high quality recoil air hose and colored couplers and plugs for use with a tank-mounted air compressor.

- Tru-Match® couplers and plugs
- 23' x 1/4" Poly recoil hose works great in cold weather
- Dial tire gauge
- Blowgun Kit with multiple nozzles for general cleaning and drying
- Ball and tapered nozzles for inflating toys and recreational equipment
- Complete with storage box for added convenience

41-253 Boxed. 4/master.

•Tru-Flate •Amflo

Water / Radiator Valves

Features chrome plated bodies with brass internal parts and self-adjusting U-cup packing. Handles are riveted and spouts are reinforced for long life. Lever controlled operating valve. Alkali, heat, oil and weather resistant.

Water Nozzle.

5029A

•Tru-Flate •Amflo

Standard Hose Crimper

Provides production capabilities and "big tool" crimping advantages at a much lower cost. Heavy duty ductile iron castings and hardened steel dies provide long service life and positive crimping. Includes five dies for crimping 1/4" braid to 3/8" double-braided hose. Also works on steel-braided hose.

855 1/box.

Replacement Dies for Hose Crimper

Sizes indicated (*) are included with Hose Crimper above. 1/bag.

| | | |
|---------------|--------|---------|
| 856-1* | 5/8" | (.6250) |
| 856-8 | 3/4" | (.7500) |
| 856-9 | 13/16" | (.8125) |

Brass Ferrules

Use with hose barb fittings. Make sure ferrule closely matches hose O.D. For use with Amflo Hose Crimper 855.

| | | |
|-----------------|-------------------|---------|

| 7242A-50 | .937" ID ferrule. | 50/box. |

WARNING: The products on this page are designed for use on compressed air lines only. Select fitting to match hose diameter. Fittings must be secured with the proper size crimped-on ferrule. Do not exceed the pressure limitation of the hose and/or air operated devices being used. Failure to follow these directions exactly may cause fittings to separate from hose and may result in personal injury and/or property damage.

MERCHANDISERS / DISPLAYS

TRU-FLATE® **Amflo®**

Tru-Flate® packaging combines colorful, eye-catching graphics and essential "how-to-use" information for added value to customers.

Tru-Flate displays are versatile, with interchangeable headers, moveable hooks and pre-printed back-up cards.

96-630 Includes 96-630-02 and 96-630-03.

Purchase both panels for the widest, most complete range of couplers, plugs, chucks, fittings and gauges or order a single panel for key products.
