

CONCROBIUM® MOISTURE GRABBERS®

DESCRIPTION AND USES

Concrobium® Moisture Grabbers® eliminate excess moisture for cleaner, fresher air. Excess moisture can cause unpleasant odors, mold and mildew stains and can damage items. Moisture Grabbers absorb and trap excess moisture to create optimal humidity levels, without causing excessive dryness. Anti-Spill technology allows moisture to be absorbed through the lid, yet protects from spills. The Moisture Grabbers refillable container can be easily refilled with tablet refills (sold separately).

PRODUCT FEATURES

- Anti-Spill technology
- Absorbs & traps excess moisture
- Reduces musty odors
- Helps freshen air

PRODUCTS

SKU	DESCRIPTION
378490	Refillable Container
378489	4 Pack Refill Tablets

PRODUCT APPLICATION

READ ALL INSTRUCTIONS CAREFULLY BEFORE STARTING PROJECT

Expose container to air flow so it can absorb humidity in the area.

- In completely sealed spaces (e.g. plastic containers or storage bins).
- For areas with ongoing humidity and dampness (e.g. closets, bathrooms, cars, boats & RVs in storage) pouches should be replaced more frequently.
- Frequency of replacement will vary depending on factors such as humidity levels, temperature and size of area.

PRODUCT APPLICATION (cont.)

DIRECTIONS FOR USE

REFILLABLE CONTAINER (#378490):

Unscrew lid and remove tablet from container. Remove tablet from bag. Place tablet tray into container first, then set tablet on top of tray. Screw lid back on container until snug. Place on a flat surface. Tablet will dissolve as moisture is absorbed. When tablet is completely dissolved, dispose of liquid into toilet and rinse container with water. Refill container with new tablet (refill tablets sold separately). Wash hands after contact. In case of accidental spill when handling, wipe up with damp rag. Do not remove Anti-Spill liner from underside of lid.

REFILL TABLETS (#378489):

Universal moisture absorbing refill tablets work in most refillable moisture absorber containers (sold separately). Remove tablet from wrapper and place inside refillable container. Universal design can be used in many types of refillable moisture absorber containers. Refer to directions on refillable container for more details.

DISPOSAL

To dispose of empty containers and unused product, contact your local environmental regulatory agency.

Discard used bag with normal household waste. In case of spills caused by puncture, clean up and discard with normal household waste.

MAY IRRITATE EYES. HARMFUL IF SWALLOWED
