ESSENTIALS™

EXCLUSIVELY AVAILABLE AT EMSER TILE®

THE DEFINITIVE GUIDE TO ALL OF
YOUR TILE INSTALLATION NEEDS!

EMSER

ESSENTIALS™

Elevate your space with our exclusive **Emser branded installation and setting materials**. Crafted for style, durability and ease of installation, our collection includes everything you need for a seamless, stylish and long lasting installation. Trust in quality for a finish that speaks volumes about your attention to detail.

THE **EMSER** STORY

Established in 1968 and headquartered in Los Angeles, California, Emser Tile® is a leading designer, producer and marketer of the world's finest tile and natural stone. By offering unparalleled service and a vast selection of products, Emser Tile® is a comprehensive source for interior and exterior products that include porcelain, ceramic, glass, decorative accents, metal, quarry, mosaics, natural and engineered stone, cut-to-size products, setting materials and custom manufactured products made to your specifications. Our nationwide service network includes state of the art distribution centers and local sales and service locations to combine a strong national presence with tailored, local service. Building upon over 50 years of service, our dedication and commitment to our customers remains as strong as ever and is the core of our business and our culture.

Our services are tailored to customers' specific requirements. Emser Tile® offers exclusive programs that help retailers, home builders, commercial builders, contractors, architects and designers exceed their customers' expectations and requirements while keeping projects on schedule and within budget.

Emser offers fashion-forward designs that can elevate any space. Our global network brings the latest trends, technologies and innovations for ceramic and porcelain tile, glass, natural stone, decorative, mosaic and metal products. We continue to offer the most compelling and extensive portfolio of colors, finishes, patterns and textures, accompanied by a broad assortment of coordinating trim and accent pieces.

Our expansive capacity translates into a vast selection of products and immediate distribution. With Emser Tile®, customers have quick access to unique and first-to-market products. With our local sales and service locations and global network of factory alliances, Emser Tile® has the infrastructure to logistically support any size project on a domestic or international level.

EMPERVIOUS™

RIGID WATERPROOF SHOWER SYSTEM

Emser Tile® Exclusive Shower System

Engineered to withstand the test of time, Empervious™ ensures a watertight seal that protects showers from leaks and moisture damage. With its innovative design and easy installation, Empervious offers peace of mind and unmatched quality for all bathroom projects!

FULLY WATERPROOFED SYSTEM

The closed-cell XPS foam core and cement coating technology used with joint sealant produces a fully waterproofed system allowing for same day tile installation.

FOAM PANELS

Available in 3'x5', 4'x5', or 4'x8' and ranging from 1/8" to 2" thick to fit your project needs.

SOLID FOAM CURBS

Utilizing a pre-formed curb will help you easily complete your shower project. Or, forgo the curb completely and create a sleek, barrier-free entry using our universal low profile pans.

UTILIZE PRE-FORMED NICHES OR BUILD YOUR OWN

Save time on installations by utilizing our pre-formed niches in the most common sizes. Elevate your design by building a custom bench from 2" wallboard.

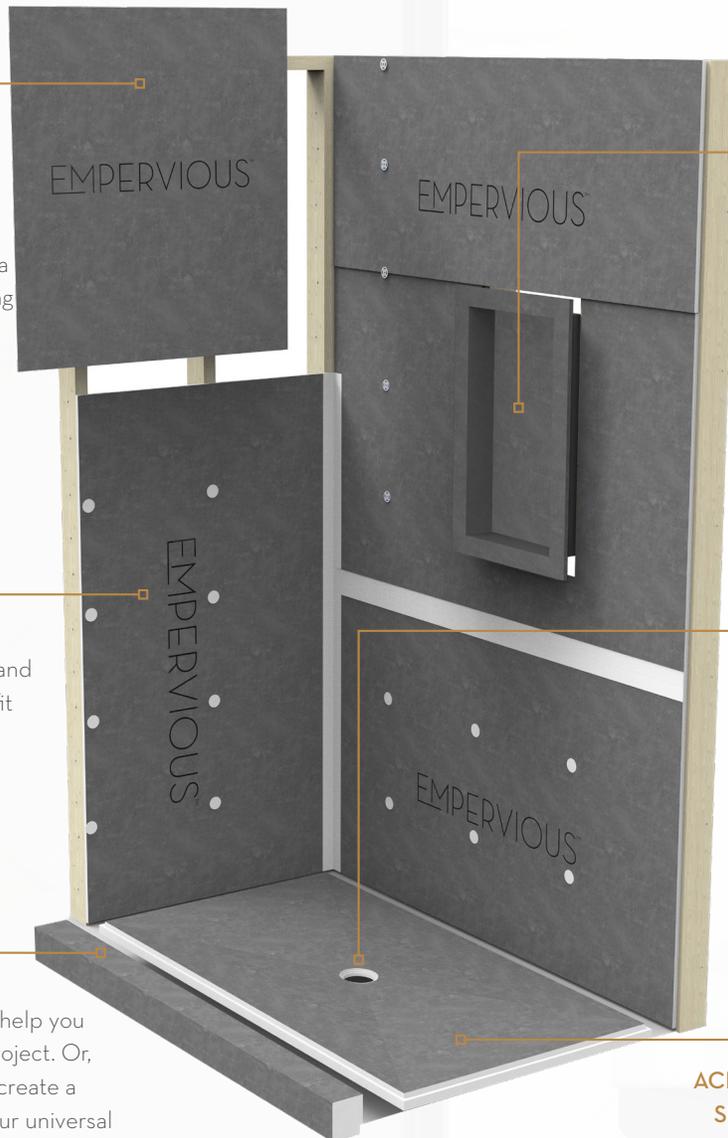

COORDINATING GRATE SWATCHES

Choose from a selection of finishes to perfectly complement other bath hardware.

ACHIEVE A PERFECT SLOPE EVERYTIME

With limitless configurations utilizing pan extensions, the pre-sloped shower pans can accommodate virtually any size shower. Plus our universal pan is a thin, low profile that makes barrier free installations a breeze.

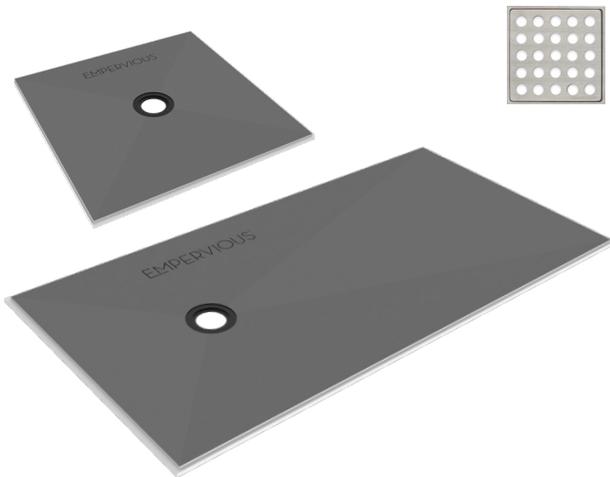

All Empervious foam products are made from high quality 100% waterproof XPS foam which is reinforced with fiberglass mesh and cement coating for added durability. The superior rigidity prevents denting or punctures during installation and allows the installer to step on the pan without damaging it.

SHOWER PAN with DRAIN

Empervious shower pans have a notched edge for easy installation creating a tight seal to your wallboard for extra protection. Available in 14 sizes to accommodate any shower configuration including offset drain options. Joint sealant sold separately in a 10oz tube or 20oz sausage.

- Site sizable - Cut to fit non-standard sizes and simply re-cut the notch
- Fast Installation & Tile or Flood Test Same Day*
- Low profile universal pans make barrier free installations easy
- 10 Year System Warranty
- Each shower pan includes: Solid brass drain assembly and stainless steel grate, mesh tape for the entire shower, and a flat and corner putty knife

FOAM BOARD

Empervious Foam Boards are available in 9 sizes ranging from 1/8" to 2" thick, and panels up to 4'x8' to cover all your project needs.

SHOWER PAN EXTENSION

Empervious Shower Pan Extensions can be utilized if your shower size falls in between a standard pan size. The standard extension works with all center drain pans with sides less than 84". The thick extension is for all offset drain pans and center drain pans with a side 84" or greater.

DRAIN GRATE

The Empervious Shower Pan includes a **Brushed Stainless Steel Drain Grate** but other finishes are available to coordinate with bathroom hardware. Additional finishes are: Matte Black, Oil Rubbed Bronze, or Polished Chrome. If a replacement is needed additional Brushed Stainless Steel grates are also available.

Matte Black

Matte Black

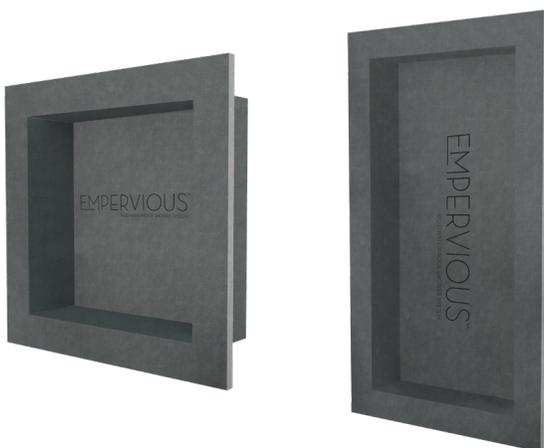

Rubbed Bronze

Stainless Steel

Polished Chrome

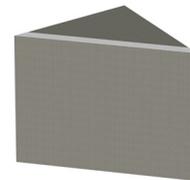

RECESS NICHE FOAM

Empervious Shower Niches are made of a solid piece of XPS foam which is sloped outward on all sides to ensure proper drainage. They are easy to install, extremely sturdy, and perfectly fits between studs in the wall.

BENCH KITS

Empervious Corner Bench Kits come in 4 pre-cut panels that are assembled on site to form a corner bench. Bench kits save time and money versus cutting your own bench from building panels or purchasing a solid foam bench.

FULL FOAM CURB

Empervious Shower Curbs come in two lengths, 5' or 8' and can be cut to the size needed. They are a 3.5" tall and 3" wide for an attractive, modern design.

RAMP

The low profile shower ramp allows for barrier free shower pan installation if you are unable to or do not want to lower the subfloor. This is a perfect solution for concrete subfloors.

SCREWS + WASHERS

Rust Free Screws and Tabbed Washers are used to secure Empervious Foam Board to walls and ceilings.

MESH TAPE

The Empervious Mesh Tape is used to reinforce the sealing of seams between foam board and the shower pan. One roll is already included with each shower pan.

BRASS DRAIN KIT

This Solid Brass Drain Kit is for use with the Empervious Shower System. Each Empervious Shower Pan already includes this Drain and a Stainless Steel Drain Grate. This is available if a replacement is needed. The kit Includes: Solid Brass Drain Body, Solid Brass Caulking Nut with tightening insert key, Rubber Caulking Gasket, Rubber Gasket, Fiber Gasket, and a Solid Brass Locking Nut

SAUSAGE GUN + REPLACEMENT TIP

The Empervious 20oz Sausage Gun enables efficient and effortless completion of the shower system. This high quality aluminum gun includes 3 replacement tips and additional tips can be purchased separately.

WATERPROOF SEALANT

SikaFlex 11FC is the only recommended Sealant for the Empervious Shower System. This single-component moisture curing waterproof sealant has an accelerated cure time allowing for same day flood testing in just two hours and ready for tile the next day. Available in 10 or 20 ounce Tubes.

PUTTY KNIFE

The Empervious Putty Knives are used to easily press tape and sealant into corner seams at any change of plane. One of each is already included with each shower pan.

Visit our website for installation videos, instructions, technical specifications and more!

EZ-FLEX40 Anti-Fracture Membrane

EZ Flex is a peel and stick anti-fracture membrane system with primer that provides reliable protection from stress cracking in ceramic and porcelain tile and natural stone due to cracks on a concrete substrate. It allows for fast tile setting with no waiting - once the membrane is applied you can begin setting right away.

EASY TO INSTALL!
NO SPECIAL TOOLS NEEDED

TECHNICAL PROPERTIES
THICKNESS 40 MILS
ELONGATION 500% MIN. (RUBBERIZED ASPHALT ONLY)
APPLICATION TEMP 45°F (7°C) MIN.
IN SERVICE TEMP -20°F TO 180°F (-28°C TO 82°C)
BOND STRENGTH OF CERAMIC TILE TO PORTLAND CEMENT, ASTM C482: PASSED
CERAMIC FLOOR INSTALLATION SYSTEMS, ASTM C627: EXCEEDED TEST REQUIREMENTS FOR "EXTRA HEAVY APPLICATIONS"

THE ULTIMATE ANTI-FRACTURE MEMBRANE

EZFlex40 contains no V.O.C.'s and is environmentally safe, which allows it to be used in confined areas. The SBS rubberized asphalt retains its flexibility throughout the floor's life span and will not dry out or decay with time. The ease of application makes EZ-Flex40 a cost-effective cleavage membrane that anyone can install.

Note: intended for indoor use only. Contact Emser Tile For information on outdoor applications.

E-LEVEL™

E-LEVEL tile leveling system provides peace of mind for a flat floor every time - eliminate call backs for unsightly lippage issues. The product has been tested to almost 2x the breakage resistance versus other brands, so you can expect it to break clean and evenly, and never break before intended.

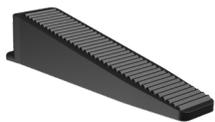

Replace the need for additional spacers and achieve a flat floor with perfect joint spacing in one easy product!

2,000 PER PACKAGE!

DURABLE

6-mil. thick polyethylene film for long life

ADHESIVE STRIP

Seals out moisture to protect floors

COVERAGE

300 sq. ft. roll covers 12'x25' area . Can be cut to size as necessary.

PREMIUM MOISTURE DEFENSE

Emcore™ Moisture Barricade, a polyethylene film-based barrier, is designed for use with laminate, SPC and engineered wood flooring to protect finished floors against moisture damage. Featuring a convenient adhesive strip, Moisture Barricade helps save time during installation as well as extends the life of the flooring.

NOTE: Moisture Barricade is not an underlayment, rather a moisture barrier and should not be used on wood subfloors.

APPLICATIONS:

Residential & Commercial

APPROVED SUBSTRATES:

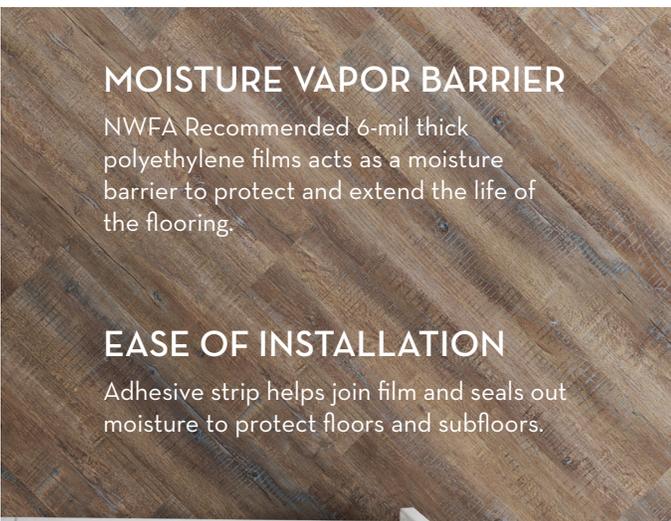

Concrete Subfloors

APPROVED FOR USE UNDER:

Laminate, SPC & Engineered Wood Flooring

APPROVED FOR USE UNDER:

Below-grade, on-grade, & above-grade

MOISTURE VAPOR BARRIER

NWFA Recommended 6-mil thick polyethylene films acts as a moisture barrier to protect and extend the life of the flooring.

EASE OF INSTALLATION

Adhesive strip helps join film and seals out moisture to protect floors and subfloors.
