Transforming  
surfaces  
...and beyond

**Our Mission**

We offer powerful, precise, user-friendly solutions, which enable our customers to cut, shape and finish all materials even in the most complex and challenging applications. By working closely with end-users and our grinding expert partners, we design and provide customized solutions to secure the best option for performance, cost and safety.

**Our Expertise**

Norton is the leading brand of Saint-Gobain Abrasives, with more than 135 years of experience in manufacturing abrasives.

We are committed to providing access to our expert's knowledge whenever you need it. Whether it is through ongoing training programs, or through on-line expert articles and white papers you can stay up-to-date with Norton where and when you need it.

Bring us your grinding challenges, we have solutions!

**Our Commitment**

You be the final judge in performance! We are so confident of the superior performance of our abrasive products, as recommended for specific applications, that we invite in-plant tests against any other brand of abrasive product on the market. Contact your Norton Representative to find out more about our No Risk test policy or visit [www.nortonabrasives.com](http://www.nortonabrasives.com)

 **NO-RISK TEST**

**Go Further**

For a more comprehensive outline of products, safety and application information, visit our website at [www.nortonabrasives.com](http://www.nortonabrasives.com) We continually update it with our most current information.

Connect with us:

**Best If Used By**

Norton | Saint-Gobain will label grinding and cutting wheels featuring a specific organic bond material with a "Best If Used By" date. This date will be calculated as three years from the date of manufacturing and will be located directly on the wheel.

SAINT-GOBAIN

**ProSand**<sup>®</sup>

OUR PRODUCT EVOLUTION IS YOUR CUSTOMER'S  
**EASIEST SANDING SOLUTION**

With Norton ProSand, we've packaged the best sanding sheets and sponges into a new look while raising the performance and durability level in order to deliver a new industry standard for sanding made easier.

# SIT, STAND, STACK OR HANG... THE OPTIONS ARE YOURS

SIT

STAND

STACK

HANG

The new retail friendly clamshell packaging for Norton ProSand Multi-Air Cyclonic and UVH discs provides a secure, rugged, durable, highly-visible package that allows customers to see, touch, and feel the disc. It also provides retailers a variety of display options including sitting, standing, stacking, or hanging the package of discs.

What material are you hand sanding?

<b>GENERAL WOOD, PAINT, PLASTIC, ETC.</b>	<b>DRYWALL &amp; PLASTER</b>	<b>METAL &amp; RUST</b>	<b>PRIMER, SEALER, TOP COATS</b>
---	------------------------------	-------------------------	----------------------------------

What level of smoothness do you need?

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE
Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

## ProSand

Premium abrasive provides superior cut on all surfaces, lasts substantially longer and cuts faster than conventional abrasives and has been open abrasive grain coated to resist clogging and loading during sanding. Available in a wide range of grits to tackle any job, ProSand Sheets are perfect for sanding paint, drywall, and wood.

### Grit Guide

60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE	400 SUPER FINE
Heavy removal, stripping, shaping, and dimensioning	Moderate removal and stripping	Moderate to light removal and stripping	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding	Final finish

### Features & Benefits

- Premium heat-treated abrasive offers faster cut and longer sanding life than 3X technology. Heat treating toughens the grain allowing it to stay sharp and last longer under extreme pressure, making it the most durable abrasive on the market. Super sharp edges allow grain to remove material faster.
- Increased backing weight. Fiber reinforcement and latex saturation offer better grain retention with higher flexibility for easy folding and unfolding without tearing.
- Non-pigmented, waterbased stearate, anti-clog (No-Fil) open coat design. Anti-clog provides best resistance to premature loading during sanding.
- No color dye in coating process so there is no chance of color transfer to work piece.

“ I shall continue to only have Norton abrasives in my shop. I've only come across one other brand that could compete in the past, but your ProSand is like a quantum leap above the rest.

- Jim Attwooll

### PERCENTAGE STOCK REMOVAL 80, 150, & 200 GRIT SEQUENCE

\* PERCENTAGE BASED ON TOTAL GRAMS CUT OVER 12 MINUTES OF SANDING ON RED OAK WITH VIBRATING SHEET SANDER

\* Results based on internal testing performed using a vibrating sheet sander. Performance data reflects cumulative stock removal of red oak panels over the course of an 80, 150, 220 grit sanding sequence.

## SandWet

For wet, oil or dry sanding primer, sealer, varnish, lacquer, enamel and other top coats.

- Flexible, fiber-reinforced backing
- Non-pigmented, water-based stearate (anti-clog) coating, open coat
- No color dye in coating process
- Superior sanding performance for a premium surface finish
- To increase sanding flexibility, soak in water for 15 minutes prior to use
- The wet dry sheets create an exceptionally smooth surface

**Bulk Full Sheets**

**TIP**

How to Cut a 9" x 11" Full Sheet to Fit Your Sander

**ProSand No-Fil A259PS**

Premium, P-graded aluminum oxide abrasive with fiber-reinforced backing. Specially coated to resist loading and tearing for three times the life over conventional aluminum oxide products. First choice when performance counts on sanding tough finishes or looking for exceptional finish. High flexibility.

**Premium No-Fil A275 (B-wt)**

Premium, P-graded aluminum oxide abrasive resin bonded to a B-weight backing. Specially coated to resist loading and tearing over conventional aluminum oxide products.

**No-Fil Aluminum Oxide A296 (C-wt)**

P-Graded premium aluminum oxide abrasives produce a quick, cool cut and a more consistent surface finish. Strong C-weight high latex/paper backing resists tearing while staying comfortable and flexible. Water-based, non-loading (No-Fil) stearedated coating minimizes clogging and increase disc life

**Adalox A213 (C-wt)**

For dry sanding hardwood, metal and composites by hand or machine. Long lasting, aluminum oxide abrasive is open coated on high tensile paper.

**E-Z Flex Metalite K225 (J-wt)**

For deburring, cleaning and polishing of metal. Rugged aluminum oxide abrasive is electro-coated onto a flexible cloth backing. Outperforms natural grains, like emery.

**Emery K622**

For scouring and polishing non-rated metals and utensils. Emery abrasive is durabonded onto a flexible cloth backing.

**Garnet A513 (C-wt)**

For rough through finish hand sanding of softer woods and cabinet work. Use dry on bare wood prior to coating. Natural garnet abrasive is electro-coated on high tensile paper.

**Tufbak Durite Waterproof T461 (C-wt)**

For sanding between coats of primers and other finishes on wood or metal with water or other lubricants. Diamond-like silicon carbide abrasive is electro-coated to a tough, waterproof paper backing.

**Tufbak Durite Waterproof T401 (A-wt), T414 (A-wt)**

For generating the ultimate finish in wet sanding applications. The premium ultra fine silicon carbide abrasive combined with a unique A-weight paper and strong resin bond system provides ultimate flexibility, long life and wet curl resistance.

**Tufbak Waterproof T280 (A-wt)**

For wet or dry sanding between coats as well as final sanding. The premium ultra fine P-graded aluminum oxide abrasive is coated on a durable waterproof paper providing an ultra fine finish with improved tear resistance.

**No-Fil Durite A475 (B-wt)**

For sanding between coats of primers and other finishes. The combination of sharp silicon carbide abrasive, a strong resin bond and special anti-clog coating gives it increased sanding life in dry applications.

### ProSand

Our super-sharp abrasive and new coating method make these sponges resist clogging, cut faster and last longer than general sanding sponges and up to 5X longer than conventional sandpaper. The various sizes and grit combinations offer maximum versatility and flexibility for sanding curved, contoured or flat surfaces of wood, metal, paint, plastic, and drywall.

To view our video, scan or click link: <https://b.link/a2gyql>

### Grit Guide

<b>STRIPPING</b>
Coarser grits remove heavy coatings or heavy stock
<b>SMOOTHING</b>
Medium grits prepare surfaces for finishing
<b>FINISHING</b>
Finer grits finish work prior to applying stain, sealer, varnish, or paint

### Features & Benefits

- Durable, abrasive-coated foam lasts up to 5X longer than sandpaper with resistance to tearing
- High-performance, open-coat aluminum oxide grain cuts faster, lasts longer and resists clogging
- Flexible and conformable to shapes and contours making sanding of various surfaces and hard-to-reach areas easier
- Washable for extended life; rinse and reuse

\*\*Packaged in convenient display case format. No inner minimum package.

“ The corner sponge rides with the irregularities and leaves no marks, while also making a great looking sharp inside corner.

- Jack Faville

### MultiSand

Offered in various styles and grits for general purpose sanding on a variety of materials. Norton MultiSand Sponges offer exceptional versatility and will help you be prepared for every step of your sanding process. Covering a wide variety of applications, these all-purpose sponges will provide superb cutting action and finishing on wood, metal, paint, plastics, ceramics, and drywall.

## Abrasive Rolls

Available in three different backings. Choose the one that's best for your application,

- **Screen** – For sanding where life and load resistance are most important. Coated on both sides with silicon carbide abrasive, the open mesh design also allows you to rinse and reuse.
- **Paper** – For fast, easy sanding when long life and consistent finish are most important. High strength latex backing offers superior strength and reduced edge wear. PSA backing for easy on/off.
- **Cloth** – For general-purpose sanding where flexibility and tear resistance are most important. Cloth backing provides increased strength and durability.

### Screen

- sanding plastic pipe prior to gluing
- preparing copper pipe and fittings prior to soldering
- sanding softer materials where loading is a major problem such as plaster, wood, drywall, brass, etc.

PART #	UPC-A	GRIT	GRADING	QTY/ PACK	PACKS/ CASE

MultiSand Stick & Sand Sheet Rolls also available - See page 8

## WallSand Sheets – Paper and Screen

For sanding drywall compound and patching plaster prior to priming. Waterproof screen resists clogging because of its open mesh design. Just rinse and reuse. Paper sheets are the standard economical choice.

## WallSand Sponges

Offered in various styles and grits for sanding of paint and drywall. Abrasive sanding sponges are extremely flexible foam, coated with abrasive on four sides. These sponges are made for use in hand sanding applications, and are easy to use on curved, contoured, or flat surface applications on drywall and joining compound. The aluminum oxide coating provides a superior finish and is the durable choice of professionals. These sponges are designed to resist clogging, simply rinse to reuse.

PART #	UPC-A	GRIT	GRADING	QTY/ PACK	PACKS/ CASE
	<b>WallSand – Small Area</b>				
Small area sanding abrasive for professional paint and drywall surface preparation. Coated 4 sides.

## Discs and Rolls

### Mesh Application

MeshPower features a full ceramic abrasive grain which offers a superior cut rate over traditional aluminum oxide. Norton No-Fill technology works to prevent clogging for a better finish and longer life, saving operators time and money. It also allows the grain to wear evenly resulting in finer scratch pattern, and faster, more consistent results throughout the product life. Open mesh construction of the backing allows dust particles to flow freely through thousands of tiny holes, creating a virtually dust-free sanding environment.

### Paper Disc Application

Aluminum Oxide abrasive for ultra smooth finish of drywall compound. Anti-clog coating on disc decreases loading and promotes optimal dust collection. The rugged hook and loop fastening system assures quick and easy disc change.

### Paper Roll Application

Paper rolls offer an economical choice over precut sheets and screens. Generally preferred for larger jobs. Cut to desired length.

## WallSand Accessories

Norton WallSand Drywall Tools help deliver flawless results when sanding drywall. The lightweight, durable designs reduce fatigue and extend the life of the tool. The easy change handle allows you to convert from a hand sander to a pole sander for extra versatility. These premium products are guaranteed to help you achieve a fast and superior finish every time.

	PART #	UPC-A	QTY/ PACK	PACKS/ CASE
	07660702411	07660702411 4	1	6**
Easy snug clips tighten for secure fit. Firm handle provides solid grip. For use with die-cut drywall and plaster sanding sheets or screens on pages 15-16.				
<b>Hand Sander</b>				
	07660702412	07660702412 1	1	8**
Use with threaded handle for sanding high walls and ceilings. For use with die cut drywall and plaster sanding sheets and screens on pages 15-16.				
<b>Pole Sander</b>				
	07660768104	07660768104 1	1	6**
Ideal for sanding larger surface areas. The light-weight, circular design virtually eliminates flipping and allows change of direction up/down and left/right without lifting off the wall. Works with a 9" hook and loop sanding disc.				
<b>9" Disc Sander</b>				
	07660768241	07660768241 3	1	6**
9" 360 Disc Sander conveniently comes with a pole adaptor making this product ideal for sanding larger surface areas and increases the versatility to reach taller walls and ceilings. Works with 9" a hook and loop sanding disc.				
<b>9" Disc Sander with Pole Adaptor</b>				

	PART #	UPC-A	QTY/ PACK	PACKS/ CASE
	07660768105	07660768105 8	1	6**
Simultaneously sands both inside seams of a drywall corner. The light-weight, 90° design provides a smooth edge with less risk of wall damage commonly caused by sanding each side separately. Works with 8" x 7" hook and loop sanding sheet.				
<b>Inside Corner Sander</b>				
	07660768106	07660768106 5	1	6**
Ideal for sanding hard to reach areas. The light-weight, 1/3 sheet hook and loop design eliminates fumbling with wing nuts and clamps. Works with 3-2/3" x 9" hook and loop sanding sheet.				
<b>1/3 Sheet Sander</b>				
	07660768107	07660768107 2	1	6**
Easily converts Norton hand sanders to pole sanders for extra flexibility in stairwells, on ceilings and hard-to-reach areas.				
<b>Pole Adapter</b>				

“

I am in the remodeling business, and I end up doing a lot of drywall finishing and wall repair. I really like the 9" round disc sander for big open areas and valley and butt joints on drywall.

- Jack Faville

### Grit Guide

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE
Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

### Features & Benefits

- Precision laser-cut, spiral-hole hook and loop vacuum design removes material consistently throughout the life of the disc while maximizing dust extraction for a cleaner work environment
- Specialized multi-hole pattern allows for use on any random orbital sander regardless of hole pattern - including unique Festool®\* sander models
- Premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer and removes material faster than conventional abrasives and uses a No-Fil coating to resist clogging/loading during sanding
- Unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant

## ProSand UVH (Universal Vacuum Hole)

The patented Norton Hook and Loop Universal Vacuum Hole Discs offer superior results when used on high-speed power tools and can fit on both 5 and 8 hole random orbital sanders. The premium ceramic abrasive provides a superior cut on all surfaces, lasts substantially longer, and removes material faster than conventional abrasives. Our unique fiber-reinforced latex/paper backing is flexible, strong, and tear-resistant.

### Grit Guide

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE

## MeshPower

Powerful dust extraction for a breath of fresh air!

Sanding often times can be dusty and messy. With Norton MeshPower sanding discs we have created a product that provides virtually dust-free sanding; meaning a cleaner and healthier working environment, a better finish and a much more comfortable sanding experience.

### Grit Guide

40 EXTRA COARSE	60 COARSE	80 COARSE	100 MEDIUM	120 MEDIUM	150 MEDIUM	180 FINE	220 VERY FINE	320 EXTRA FINE
Heavy removal, stripping, dimensioning, and shaping	Moderate removal and stripping	Removing surface imperfections, sanding, and stripping	For light removal and smoothing of bare surfaces	Light stock removal and surface leveling	Fine surface preparation	Final surface smoothing and initial between coats	After priming, staining, or sealing	Between coats sanding

### Features & Benefits

- MeshPower discs are a multi-functional abrasive, designed with thousands of holes, created by the unique open mesh backing
- This mesh structure allows for powerful and effective dust extraction in any application.
- Patented Norton No-Fil technology works to prevent clogging for a better finish and longer life, saving operators time and money.
- It also allows the grain to wear evenly resulting in a finer scratch pattern, and faster, more consistent results throughout the product life.

### Competitive Benchmarking

\*Results are based on 12 minutes of sanding on maple panel (80, 120, 220 grit).

## MultiSand – Hook and Loop – Paper

Norton MultiSand Hook and Loop Discs offer a superior cut rate and consistent finish. The unique fiber-reinforced backing is edge tear-resistant and features a hook and loop backing that makes for quick and easy disc changes. Water-based zinc stearate coating reduces loading and prevents finish contamination.

### MultiSand – Stick & Sand – Paper

Norton MultiSand Stick & Sand PSA Discs and Rolls feature a durable, sharp aluminum oxide grain for aggressive and cool cutting.

The non-pigmented, water-based anti-clog coating resists loading and won't contaminate the finish. Pressure sensitive adhesive allows for quick and easy disc changes.

## MultiSand – Stick & Sand – Cloth

Norton MultiSand Cloth Stick & Sand PSA Discs are used for a variety of applications including rough sanding of primed and painted surfaces, stripping paint and primers, and heavy stock removal of wood, metal, plastic, and fiberglass.

### Applications:

#### Electric Random Orbital Sanders

For use on contours or flat surfaces for light- to medium-pressure grinding, blending, leveling, and finishing applications.

#### Stationary Disc Sanders

Used in woodworking and metalworking for stock removal, sanding/grinding flat surfaces, dimensioning and finishing.

## Flap Disc

Our Norton flap disc portfolio offers right angle grinding versatility with a product that can grind and finish in a single operation. The abrasive flaps are adhered to a rigid backing plate. It is the back plate that provides stability during operation with cooler cut, less vibration and smoother finish without gouging.

Applications: Grinding, stock removal, edge chamfering/beveling, weld blending, deburring/deflashing, rust removal, blending, cleaning and finishing

**NOTE: Use at 15°-25° angle. More severe angles will weaken edges.**

### Grit Guide

36 EXTRA COARSE	40 COARSE	60 COARSE	80 MEDIUM
Heavy Removal	Moderate Removal	Moderate Removal	Final Surface Smoothing

### Flap Disc Shapes

GRIND AT FLATTER ANGLES: 0° - 15°

#### Type 27 Flat - The Best Choice for Finishing

- Used primarily on flat surfaces
- The best choice for blending and smooth finishing

GRIND AT STEEPER ANGLES: 15° - 25°

#### Type 29 Conical - The Best Choice for Aggressive Stock Removal

- Conical flap discs have angled flaps and may be used on both contoured and edge work
- The angle provides greater surface contact for stock removal on flat surfaces
- The best choice when speed and stock removal are primary considerations

### Abrasive Flap Density

#### Standard Density

- Excellent for heavy-duty applications and rapid stock removal

## Rapid Strip

Non-woven depressed center discs have three components: strong synthetic fiber mesh and quality abrasives, bonded together by a smear-resistant adhesive.

Rapid Strip discs have an open web construction that enables aggressive cutting action while maintaining a cool, non-loading surface.

### Quick-Change Disc

The tool-free, twist-on and off fastening systems of Norton quick-change discs make fast work of disc changes and maximize productivity by minimizing downtime.

**Fiber**

- Weld grinding
- Metal removal

**Non-Woven**

- Removing surface defects
- Blending mill marks, tool marks and uneven finishes

**Type TR (Type III)**

- Features a roll-on/roll-off style plastic fastener
- Equivalent to 3M™ Roloc™ fastening system

**STOCK REMOVAL IN GRAMS OVER 6 MINUTES OF SANDING**  
ON HARD MAPLE ON BELT SANDER

## Red Heat

Norton Red Heat belts utilize a premium ceramic alumina grain delivering a superior cut rate to anything on the market. This ceramic grain “micro-fractures” during the sanding process, leaving a razor sharp edge throughout the life of the belt. It’s symmetrically-shaped design leaves a much finer scratch pattern compared to other abrasives, allowing for an aggressive cut without deep scratches that might be seen after staining or finishing. Combine all of this with a heavy cotton backing and you have ultimate durability and longevity.

<b>36 GRIT</b> Heavy Removal	<b>50 GRIT</b> Heavy Removal	<b>80 GRIT</b> Moderate Removal	<b>120 GRIT</b> Light Removal
---------------------------------	---------------------------------	------------------------------------	----------------------------------

### Features & Benefits

- Utilizes ceramic alumina abrasive for five times the product life over conventional abrasives on the hardest woods and finishes
- Symmetrical shape of the ceramic alumina grain allows the belt to cut aggressively while leaving a finer scratch on the surface which results in a superior finish and less time sanding
- The super-sharp micro-fracturing ceramic grain cuts cooler and resists loading which minimizes belt changes
- Heavy cotton backing is durable and tear resistant

## MultiSand – Aluminum Oxide Portable / Benchstand Belts

MultiSand Aluminum Oxide Portable and Benchstand Belts are ideal for all your metal and woodworking applications. Found in a wide variety of grits and sizes they can be used for tackling the following projects:

- Heavy stock removal
- Finish sanding
- Deburring of steel
- Polishing
- Dimensioning and shaping
- Removing saw marks

## CUTTING & GRINDING OFFERING FOR ALL YOUR CUTTING NEEDS!

The NEW Norton Clipper Classic Multi-Material cutting and grinding wheels' innovative technology eliminates the need for specialty abrasive products. They cut and grind ALL types of materials including: meta-inox, stone, aluminum, PVC, ceramic and tiles, and at the same time save you time and money.

### FEATURES & BENEFITS

- Cut and grind ALL materials with one single product; no need for multiple wheels for different applications and materials
- These wheels are also ideal for cordless machines, giving minimal resistance when in use
- Free-cutting action absorbs less energy from the battery

Learn more about our labeling practice for grinding and abrasive wheels

[nortonsga.us/BestIfUsedByDate](https://nortonsga.us/BestIfUsedByDate)

## Clipper Classic Cutting & Grinding

The Norton Clipper Classic cut-off line delivers a range of sizes and thickness for the most demanding portable and fixed-base applications on metal, stainless, tubing, and other building materials. Designed to give the user an optimal cut rate with improved life to increase productivity over conventional products.

### Cut-Off Wheels

The Norton Clipper cutting wheels consists of flat Type 01/41 and Type 27/42 wheels that have fast and efficient cutting power for all your cutting needs. From metal, to concrete, to wood; the superior bond and high-quality aluminum oxide grain offers a great wheel life.

### Grinding Wheels

The Norton Clipper Classic depressed center wheel line (also referred to as raised hub wheels) is designed to handle the most severe right angle grinding applications from heavy stock removal to rough blending different types of ferrous metals. Wheels are designated by shape type with Type 27 being the most popular. Combination wheels provide a fast, time-saving cut while adding the grinding power all in one wheel.

### Chop Saw Reinforced Cut-Off Wheels

Another addition to the Norton Clipper line are our chop saws. Chop saws are a light and low-horsepower portable machine. Though they are similar to compound miter saws, chop saws are designed to handle cutting denser materials. Metal bar, tubing, and pipes are excellent applications for chop saws. Chop saw cut-off wheels are designed specifically for this machine with finer grit, softer grades, and reinforcement layers that match the application.

### Stationary Saw Reinforced Cut-Off Wheels

The Norton Clipper stationary saw reinforced cut-off wheels consist of Type 01/41 wheels, designed to fit on fixed-base stationary saws that are free standing or mounted on a workbench.

## Diamond Blades

Norton Clipper diamond blades are the choice of professionals because of their faster cut rate, constant depth of cut, and less downtime versus standard abrasive blades. The Norton Clipper Classic is a workhorse and quality blade that no shop should be without.

### Segmented Rim

- Most aggressive cutting action for use on the widest variety of materials.
- Typically used on high-speed, walk-behind and masonry saw blades.

### Continuous Rim

- Provides the smoothest cut.
- For use on porcelain, ceramic tile, marble and other hard materials requiring a high quality cut.

### Turbo Rim

- Aggressive cutting action with a smoother quality cut.
- For use on harder materials such as granite, marble and stone, to reduce chipping.

### Tuck Pointing

- Economical for small to medium tuck pointing jobs. High-quality performance for heavy grout removal or mortar jointing.
- Heavy-duty wide segment reduces wear in abrasive materials.

## Wire Wheels and Brushes

Norton wire wheels and brushes readily remove oxidation and rust, paint, slag, weld spatter, and other unwanted surface contaminants. Using a wire wheel or brush can prevent loss of the base material that you are working on. The flexibility of wire wheels and brushes allows you to get into every nook and crevice, for a thorough clean, which more rigid products cannot get to.

#### Crimped

Crimped wire brushes' individual filaments are supported only by each other – creating extra flexibility. Ideal for work on irregular surfaces, finer surface finishing, and light- to medium-duty contaminant removal applications.

#### Standard Twist Knot

Ensuring longer life, making them the choice for more aggressive applications requiring higher-impact action, and a rougher surface finish. Standard twist knot brushes are made with straight wire filaments that are twisted together to make more rigid rope- or cable-like pieces.

#### Stringer Bead Twist Knot

Stringer bead twist knots (vs. standard twist knots) are more tightly twisted to the end of the knot, creating a narrower face and highest-impact action. The choice for tough weld scale cleaning, removing the bead scale that occurs at the initial joining of two sections of pipe, root and hot weld pass cleaning, and the most aggressive brushing applications.

## Norton Painter's Plastic

Our multi-purpose plastic sheeting protects virtually any area from sanding dust and paint overspray with ease – even after repositioning. Mono films and linear low density plastics (LLDPE) don't compare.

### Features & Benefits

- Resists tearing and solvent bleed-through with lightweight .31 mil High-Density Polyethylene (HDPE) plastic
- Holds in place as it clings to horizontal or vertical surfaces during taping with its natural electrostatic properties
- Attracts and holds sanding debris for a dust free finish
- Drapes easily over furniture

*Note: pallet quantity is 96 rolls*

## Norton Hand Masking Film

Norton Hand Masking Film is specially designed to resist paint flaking during multiple-coat paint applications. Paint overspray adheres to the outside layer of plastic, preventing flaking into the base coat and resulting in a cleaner overall work space. Offered in four different sizes with a .375 mil thickness, this clear film will allow you to achieve a high quality job in less time and protect from overspray.

## Norton Steel Wool

The perfect all-purpose choice for professional contractors and do-it yourselfers. Made of thin bundled fibers, the soft abrasive can be used for cleaning, smoothing and polishing with grades varying from extra coarse #4 for heavy stripping to super fine #0000 for finishing. Color-coded packaging and grade indicator make it easy to choose the right coarseness for the job at hand, whether it's removing rust, dirt, varnish, or stripping paint from exterior woodwork. This product has been designed get into those hard-to-reach areas and compress to any shape for endless uses.

### Application/Grit Recommendation Guide

### Features & Benefits

- Ideal for most household projects, including removing rust, dirt, varnish, or stripping paint from exterior woodwork
- Thin metal fibers bundled together easily compress to any shape so pads can be used in hard-to-reach areas and contoured surfaces
- Available in grades ranging from extra course #4 for heavy stripping to super fine #0000 for finishing and polishing
- Color coded packaging and grade indicator chart make finding the right grit easy

### Features & Benefits

- Synthetic non-woven hand pads made of a nylon web with abrasive grain and resin bond
- They are designed for applications ranging from heavy-duty cleaning to polishing
- Compatible with both solvent-based and water-based stains and finishes

### Non-Woven Pads and Rolls

Non-woven pads are an ideal replacement for steel wool for heavy-duty cleaning and stripping through finishing to light-duty polishing.

- Flexible - can be cut or folded
- Won't rust, shred or splinter
- Washable and reusable
- Use with/without chemicals

## Micro-Fiber

Micro-fiber cloths have edges that collect debris as opposed to pushing it away. The particles are trapped in between the fibers and can be rinsed or machine washed to release heavily embedded particles. Micro-fiber products can be washed up to 300+ times without losing cleaning and trapping abilities, which will save you labor time and additional costs of multiple cleaning products and chemicals.

- Cleaning cloth (blue) is used for general wet or dry cleaning applications
- Dry tack cloth (red) has a low profile to resist snagging and pick up embedded debris
- Polishing cloth (yellow) is ideal for streak-free cleaning of mirrors and optical lenses

### TECH TIP

Micro-fiber is virtually scratch resistant but may pick up debris that can scratch. Clean micro-fiber products often for best results.

### SG H920 Ceramic Alumina

- Durable and friable Norton seeded gel ceramic alumina abrasive ensures fast, aggressive, yet cool cutting action and maximum life
- Strong F-weight paper, synthetically-coated, provides maximum durability and resistance to edge chipping and shedding
- Closed coat and sharp grain make this a premiere product for metal fabricating and blending; ideal for soldered and welded areas

### BlueFire H822 Zirconia Alumina

- Patented zirconia alumina abrasive provides 2X-3X life over aluminum oxide products
- Strong F-weight paper, synthetically-coated for excellent durability and chip resistance; pressure sensitive adhesive and linked disc roll format allow easy application, removal, and dispensing
- Non-stearated (no anti-loading agents) for non-contaminating; often required for prime auto and aerospace paint applications

### BlueFire H875P Zirconia Alumina

- Next-generation, self-sharpening zirconia alumina abrasive provides 2-3 times the life of aluminum oxide discs, longer life versus original zirconia alumina discs, improved cut rate, and minimal heat
- Strong E-weight latex/paper backing resists tearing while staying conformable and flexible
- Open coat contributes to minimized loading

## Multi-Air Cyclonic

Revolutionary Norton Multi-Air Cyclonic hook and loop vacuum discs raise the bar in power sanding with a precision laser-cut, spiral-hole design that provides maximum dust extraction for a cleaner work environment with fewer disc changes and greater productivity.

### Improved Dust Extraction / Increased Productivity

The upgrade to precise, flat, laser-cut holes instead of die-punched holes, dramatically increases surface area contact allowing Norton Multi-Air Cyclonic discs to improve productivity by 32% versus conventional multi-hole sanding and by 60% versus non-vacuum sanding.

The end result is more holes for dust extraction, more abrasive coverage for a better cut and no deformation – for full surface contact utilizing all the cutting power of the premium ceramic grain.

Refer to the Sanding Accessories section for back-up pads and accessories.

### Blaze A995 No-Fil Ceramic Alumina

- P-graded, next-generation sharper-edged ceramic aluminum oxide abrasive ensures fastest cut rate and longest life of any paper disc
- Unique polyester-reinforced, D-weight latex saturated backing provides maximum tear strength while retaining flexibility
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work

### A275OP No-Fil Aluminum Oxide

- Premium P-graded, heat treated, toughened aluminum oxide abrasive delivers superior life, fast cut rate, consistent finish
- Unique fiber reinforced, flexible B-weight latex saturated backing provides 50% - 60% improvement in tear strength while retaining flexibility
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work
- 5" and 6" individual PSA discs in fine grits have a tabbed, white translucent liner to protect the PSA adhesive from airborne contaminants; the tab allows easier removal of the paper liner

### Durite A475 No-Fil Silicon Carbide

- Sharp and hard, P-graded, silicon carbide abrasive easily penetrates the hardest material and veneers to create finer finishes where finish is critical
- Flexible, B-weight fiber reinforced, latex paper backing provides flexibility and resistance to tearing
- Water-based, non-pigmented stearate No-Fil coating and open coat provide maximum load resistance and no color transfer to work

### Gold Reserve A296 No-Fil Aluminum Oxide

- P-graded premium aluminum oxide abrasive produces a quick, cool cut and a more consistent surface finish
- Strong C-weight high latex/paper backing resists tearing while staying conformable and flexible
- Water-based, non-loading (No-Fil) stearate coating – minimizes clogging and increases disc life

### Multi-Air Foam Interface Pads

- Designed for use with fine grit Multi-Air Cyclonic hook and loop sanding discs to improve both surface finish and cut rate
- Use with Multi-Air hook and loop disc back-up pads
- Align the interface pad with the Multi-Air back up pad then simply attach the disc to the interface pad because the holes do not have to be lined up
- Ideal for use with new Mesh discs

SIZE (D x T)	DESCRIPTION	STD. PKG.	PART #
<b>Multi-Air Foam Interface Pads with Vacuum Holes</b>			
5" x 1/2"	Multi-Air Hook and Loop Interface Pad	8	636425 <b>85864</b>
6" x 1/2"	Multi-Air Hook and Loop Interface Pad	12	076607 <b>19359</b>

### Low-Profile Pads for Dual Action / Random Orbital Sanders

- Soft density low-profile pads utilize 1/2" thick foam for fine finish sanding and offer moderate conformability
- Medium low-profile pads have 1/2" thick urethane foam for intermediate and finish sanding
- Available with PSA (pressure sensitive adhesive) or hook and loop faces; both designs are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for added strength and increased heat resistance
- Available with standard hole patterns for vacuum-assist sanding

### Multi-Air Hook and Loop Back-up Pads with Vacuum Holes

- Innovative design optimized for maximum air flow and powerful dust extraction
- Pads are engineered with a durable urethane foam, heat-resistant plastic, a molded-in 5/16"-24 spindle, and hooked face
- Holes in the disc do not have to be matched up with the holes in the pad, so changeover is fast and easy
- Ideal for use with new Mesh discs

SIZE (D)	DESCRIPTION	MAX. RPM	STD. PKG.	PART #
<b>Multi-Air Hook and Loop Back-up Pads with Vacuum Holes</b>				
5" (125mm) with 5/16"-24 Shank	Medium-Density Urethane Pad	15,000	5	666233 <b>76000</b>
6" (150mm) with 5/16"-24 Shank	Medium-Density Urethane Pad	15,000	5	636425 <b>06160</b>

### Tapered Pads for Dual Action / Random Orbital Sanders

- Designed with medium density polyurethane foam and a tapered edge for conformability, these pads are firm enough for flat surfaces, yet soft enough for severe curves and contours
- Available with either PSA (vinyl, pressure sensitive adhesive) or hook and loop faces in vacuum or non-vacuum
- The 5" and 6" pads are shock resistant and have a fiberglass backing plate with a riveted 5/16"-24 threaded shank for use on random orbital or dual action sanders
- The 8" pads have a 5/8"-11 threaded female hub

### Hook and Loop Foam Interface Pads

- Designed for use with our fine grit hook and loop sanding discs
- Improve both surface finish and cut rate
- Use with hook and loop back-up pads

SIZE (D x T)	DESCRIPTION	STD. PKG.	PART #
<b>Foam Hook and Loop Interface Pads</b>			
3" x 1/2"	Interface Pad	10	636425 <b>05457</b>
6" x 1/2"	Interface Pad	5	636425 <b>42089</b>
5" x 3/4"	Interface Pad	2	636425 <b>02161</b>
6" x 3/4"	Interface Pad	2	636425 <b>02162</b>

### Half Moon Hand Pad

- The unique half moon pad takes a standard 5" hook and loop disc folded in half, which adheres to the hooks on the pad face
- The straight edge of the pad allows the operator to sand corners, contours, narrow crevices and minute imperfections without over-sanding

SIZE (D)	DESCRIPTION	STD. PKG.	PART #
<b>Half Moon Hand Pad</b>			
5"	Hook and Loop	10	636425 <b>02768</b>

### Polishing Adapter Pad

- Converts your standard hook and loop pad into a soft polishing pad
- The foam adapter is 3/8" thick and is excellent for fine grits where minimal removal is required
- It is ideal for either flat or contour surfaces

SIZE	DESCRIPTION	MAX. RPM	STD. PKG.	PART #
<b>Polishing Adapter Pad</b>				
5"	Hook and Loop Adapter Pad	3,786	10	636425 <b>03121</b>

### Ergonomic Hand Sanders

- The ergonomic palm sander is uniquely designed to be user-friendly, with finger indentations for the operator
- It quickly converts standard 5" and 6" hook and loop discs into hand sanders for finishing flat surfaces

SIZE (D)	DESCRIPTION	STD. PKG.	PART #
<b>Ergonomic Hand Sander</b>			
5"	Hook and Loop	5	636425 <b>03147</b>
6"	Hook and Loop	5	636425 <b>03726</b>

### Disc Hand Pads

- Hand pads eliminate finger sanding
- The ultra-thin 3/16" thick pad is composed of a single layer of neoprene foam and is designed for maximum flexibility – producing excellent finishes
- The 1" thick pad is composed of two layers, neoprene and polyester foam, for excellent conformability and softness, resulting in fine finishes
- Each pad has an elastic hand strap to hold it firmly in place
- Available with either PSA (vinyl, pressure sensitive adhesive) faces or hook and loop face

SIZE (D x T)	DESCRIPTION	STD. PKG.	PART #
<b>Disc Hand Pads</b>			
5" x 3/16"	Soft Foam PSA	10	636425 <b>03111</b>

5" x 1"	Soft Foam Hook and Loop	10	636425 <b>03117</b>

### Panel and Adhesive Cleaner

- Removes adhesives, tar, grease, wax, body sealers, undercoating sprays, and silicone from most surfaces
- Aggressive cleaner is safe to use on most paint applications
- Packaged with squirt dispenser
- Use as directed

SIZE/DESCRIPTION	STD. PKG.	PART #
<b>Panel and Adhesive Cleaner</b>		
Quart Can	12	076607 <b>82780</b>

### PSA Disc Roll Dispenser

- Norton disc roll dispensers feature heavy-duty construction and a rubberized finish to protect your product, as well as the finish on your workpiece
- These versatile dispensers are designed to accommodate any 5" or 6" disc roll or sheet roll
- They can be attached to a wall or stacked for multi-grit or multi-diameter operations
- Discs are individually dispensed and removed from the roll by a cutter bar

DESCRIPTION	STD. PKG.	PART #
<b>PSA Disc Roll Dispenser</b>		
Single Disc Roll Dispenser	1	636425 <b>42772</b>
Double Disc Roll Dispenser (shown)	1	636425 <b>02981</b>

## Narrow Belts – Cloth

Narrow aluminum cloth belts are available in a wide variety of sizes to fit most backstand and benchstand grinders in a range of grits for most dimensioning, intermediate grinding and polishing applications. Some designs include a reversible butt splice joint so that you can use the belt in either direction for extended product life.

## Racking

Modular designs for mix and match display needs

## Racking

Short Peg Rack  
Part # 076607**02270**

- UPC-A number 07660702270 7
- holds 4", 4-1/2", 5" bulk depressed center wheels, cut-off blades or fiber discs
- over tag area for price label
- empty wire displayer
- 6 units/box

Record Slot Wheel Rack  
Part # 076607**02269**

- UPC-A number 07660702269 1
- holds 12", 14" or 16" bulk cut-off blades, chop saw blades or diamond blades
- can fit 2 SKUs per rack or 1 SKU, doubled up
- display at base due to product weight
- wire displayer (product not included)
- 2 units/box

Single Stack Blade Rack  
Part # 076607**02273**

- UPC-A number 07660702273 8
- holds 6-1/2", 7", 8", 10" bulk cut-off blades
- holds 7" bulk diamond blades
- holds 5", 7", 9" bulk fiber discs
- display on pegboard or shelf
- front plate for pricing and store info
- empty wire displayer
- 2 units/box

Pocket Wheel Rack  
Part # 076607**05347**

- UPC-A number 07660705347 3
- holds 12" blades in bottom pocket and 12" or 14" in top pocket
- fits 2 SKUs per rack or 1 SKU, double faced
- design more evenly distributes product weight and provides enhanced visibility of item(s)
- wire displayer (product not included)
- 1 unit/box

Long Peg Rack  
Part # 076607**02271**

- UPC-A number 07660702271 4
- holds 7" hubbed depressed center wheels
- holds other mid-size diameter discs requiring better dispersement of product weight
- over tag area for price label
- empty wire displayer
- 2 units/box

Basket Bench Wheel Rack  
Part # 076607**02272**

- UPC-A number 07660702272 1
- holds 6" - 8" bench & pedestal wheel boxes
- can also hold 7" job pack circular saw cut-off blade boxes
- front plate for pricing and store info
- wire displayer (product not included)
- 2 units/box

**Racking**

3-Way 9" x 11" Handy Pack Sheet Rack  
Part # 076607**02296**

- UPC-A number 07660702296 7
- vertical, space saving 3-pocket rack for 9" x 11" handy packs
- sits on counter/shelf, mounts to an upright beam using washers on back to bolt through or hangs on pegboard
- price tag area per grit
- each pocket fits 15 packs
- 1 unit/box

Wire Tray For Bulk Portable Belts  
Part # 076607**02266**

- UPC-A number 07660702266 0 (2 trays/box)
- modular unit for displaying portable belts on pegboard
- set belt boxes on wire tray to hold belts and identify size and grit
- can also be used for other products as a shelf unit
- multiple racks can be positioned vertically and/or side by side for maximum impact

9" x 11" Handy Pack Spacesaver Merchandiser  
Part # 076607**48932**

- UPC-A number 07660748932 6
- space saving 3-pocket rack hangs on pegboard to display 9" x 11" Handy Pack sheets
- can be used horizontal (as shown) or vertical
- each pocket fits 15-20 packs
- 1 unit/box

9" x 11" Sheet Merchandiser  
Part # 076607**01113**

- UPC-A number 07660701113 8
- displays 9" x 11" bulk sheets, job packs, and handy packs
- individual, stackable trays from bottom to top for sturdy, free-standing counter display or pegboard/wall mounting without front to back movement
- durable wire gauge to withstand wear; won't bend or sag
- full width, front plate for quick product identification
- 4 trays/box

# POWERFUL DUST EXTRACTION

## FOR A BREATH OF FRESH AIR

Designed for virtually dust-free sanding, Norton MeshPower ceramic discs provide for a cleaner and healthier working environment, a better finish, and a much more comfortable sanding experience.

## NORTON MESHPOWER ADVANTAGE

- Mesh backing for optimum dust extraction
- Full ceramic grain for excellent cut rates and superior scratch pattern
- Norton No-Fil technology prevents clogging and creates a consistent cut throughout the product life
- Hook and loop design with no designated hole pattern is quick and easy to align to any backing pad – just apply and go!

# NORTON DO-IT-YOURSELF AND CONTRACTOR MARKET

**Flexibility and Conformability in the Palm of Your Hand.**  
Norton ProSand has every angle covered with various shapes, sizes and grit combinations of sanding sponges. Last longer than sandpaper.

**For a Breath of Fresh Air.**  
With Norton MeshPower sanding discs feature powerful dust extraction for a virtually dust-free sanding; meaning a cleaner and healthier working environment, a better finish and a much more comfortable sanding experience.

**It's Time to Clean the Air.**  
Norton ProSand Multi-Air Cyclonic Discs feature a multi-hole design pattern that maximizes dust extraction for all 5" & 6" random orbital sanders. For all surfaces and coatings.

**Fast and Tough for the Most Demanding Jobs.**  
Norton Diamond Blades are the choice of professionals vs. abrasive blades with faster cut rate, constant depth of cut and less downtime.

**Bulk Up Fast with Norton WallSand.**  
Packaged in bulk, Norton WallSand bulk drywall sanding sheets meet the unique needs of drywall contractors and deliver flawless walls and ceilings with fewer trips to the store to stock up.

**Norton Has You Covered.**  
Norton Painter's Plastic protects virtually any area from sanding dust and paint overspray with ease - even after repositioning. Mono films and linear low-density plastics (LLDPE) don't compare.
