Lavatory

Sure-Vent® Air Admittance Valve

Toilet or Dishwasher

Washing Machine with
Secondary Drain Funnel

UNIVERSAL SINGLE BOX PLATFORM

MODA™ Supply Box System is designed to meet the needs of plumbing contractors for washing machine, ice maker, lavatory, toilet, dishwasher, secondary drain and Sure-Vent® Air Admittance Valve applications. A universal single box platform provides maximum versatility, installation simplicity and rugged reliability. MODA™ Supply Box System is the ultimate solution for speed and flexibility.

PVC construction
means no need for
transition cement in
PVC applications

PATENT
PENDING
LocPin™
FEATURE
MAKES VALVE
REPLACEMENT
A SNAP

Universal Single Box Platform

Using a single box platform provides significant convenience to installers. One universal faceplate is compatible with all box types. All boxes can snap to one another, and common brackets can be used on any MODA™ supply box.

Stronger, Simpler Box Connections

Unique interlocking wing flanges accommodate on-stud, straddle-stud and three-box installations. Advanced snap-lock design allows assembly and disassembly with equal ease, for quicker installation and easy repositioning on the job.

Layout Versatility

Separate valve and drain boxes allow paired or split boxes between walls or stud bays to prevent supply/drain crossovers. Dual box design provides ideal options for stacked washer/dryers and space-limited laundry rooms.

Tool-Free Test Plug

Plumber-preferred, quarter-turn test plug with gasket provided with every drain box. This means no knock outs falling into drains and no tools required. Oatey® Exclusive feature.

AAV Box Adapter

Quarter-turn adapter with gasket maintains air-tight seal and can be retrofitted on any drain box.

Emergency Drain Port

Valve boxes can be piped to the DWV system using flexible 3/8" ID tubing and hose clamps to guard against slow drips.

Tough PVC Construction

Stands up to the roughest job site abuse, and no transition cement needed when solvent welding PVC pipe.

Easy Maintenance Valve with LocPin™ Feature (Patent Pending)

Two piece valve design makes valve replacement easy to repair, without damaging drywall. Valves rated to 150 PSI air and 250 PSI water.

& MORE

What other systems missed, Oatey designed in.

Feature	Description	The Competition	MODA™ MODULAR SUPPLY BOX SYSTEM
Solid, Simple Box Connection Method	Sturdy interlocking wing-flanges that accommodate on-stud, straddle-stud and three box installations. Snap locking system provides strength, while allowing for easy disassembly.	×	✓
Tool-Free Test Plug	Quarter-turn test plug with gasket provided with drain boxes. Clearly identified and easy to remove. Plumber-preferred feature.	×	✓
AAV Box Adapter	AAV easily installs into box with provided quarter-turn adapter. Adapter with gasket maintains air-tight seal in wall. Can be retrofitted on any drain box.	×	✓
Emergency Drain Port	Valve boxes can be piped to the DWV system to protect against hose drips.	×	✓
Two-Piece Valve Design	Two-piece valve design allows servicing of the valve without the need to cut out dry wall. Code compliant (where applicable).	×	✓
Single Box Installation	Box design permits a single box washing machine installation (inverted valve), as all dual valve boxes have a top knockout built in.	×	✓
Heavy Duty PVC Construction	PVC is a strong, rigid material that stands up to job site abuse. When solvent welding the box to PVC pipe, no transition cement is required.	×	✓

VALVE CONNECTIONS

3/4" Male Thread Outlet
(Washing Machine)

1/4" OD Compression Outlet
(Ice Maker)

3/8" OD Compression Outlet
(Lavatory, Toilet, Dishwasher)

VALVE TOPS

Hammer Arrestors

Non-Hammer

LocPin™ Clip & Clip Cover

All valves available with and without hammer arrestors.

All valves are cUPC listed and hammer arrestors are ASSE compliant.

Ice maker and utility valves are NSF 61 compliant.

BOX COMPONENTS, FEATURES AND ACCESSORIES

Universal Faceplate

One box, one faceplate. It's just that simple. No more extra inventory or mis-matching. Included with every box.

Universal Faceplate: #37531

Protective Sticker Cover

Protects box from paint and drywall debris. Included with every box.

Sticker: #37529

Side Brackets

Broad, sturdy brackets just clip on, yet provide solid support to withstand rigorous drywall installations. Extras can be ordered as required. Included with every box.

Side Bracket: #37535

Faceplate Inserts

MODA offers three inserts that snap in to the standard faceplate - partial coverage, full coverage and louvered.

Solid Faceplate: #37532

Semi-Cover Faceplate: #37533

Louvered Faceplate: #37534

Secondary Drainage Funnel

Installs with a quarter turn, creating a 1" air gap and providing dual drain capabilities. Recommended for low volume (< 3 gpm) discharge appliances. When used with MODA® Auxiliary drain box and inlet fitting adapter, rated for up to 8.5 gpm discharge.

Secondary Drainage Funnel: #37536

Sure-Vent® Adapter

Quarter turn adapter with gasket maintains air-tight seal, and can be retrofitted on any drain box. *Does not include Sure-Vent® AAV.

Adapter: #37537

Center Support

Provides added rigidity in center and metal stud installations. Fits into metal stud cavity. Included with all **double** boxes.

Center support: #37539

Tool-Free Test Plug

Oatey's popular tool-free, quarter-turn mechanical test plug cap with gasket can't fall down into the drain line. Extras can be ordered as required. Included with every drain box.

Test Plug: #38576
