LASH® Tile Leveling System

made in
USA

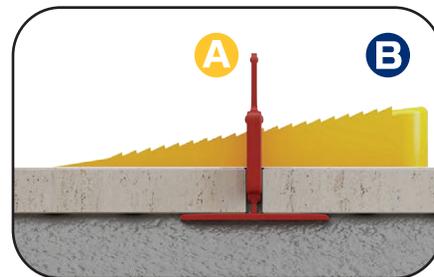

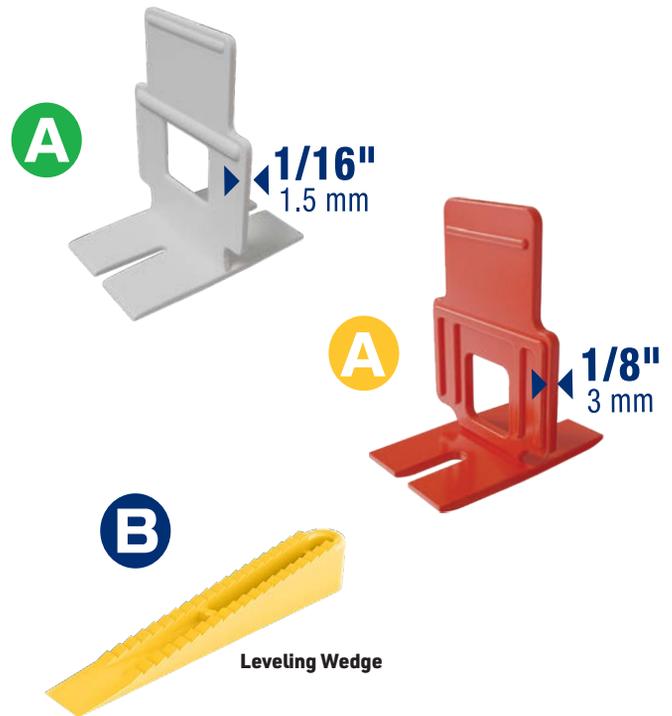

The ORIGINAL
LASH®
LEVEL ALIGN SPACE HOLD

For perfect tile-to-tile leveling

The patented LASH® Tile Leveling System is designed for quick installation and reduces costly call backs by insuring that the finished floor surface is lippage-free. This time-saving system helps adjust the height of the tiles and evenly holds their edges throughout the curing process of the setting material.

- For use with all floor and wall tiles between 1/4" and 7/16" thick
- Durable nylon construction for a secure installation
- Specially designed break-off point on clips for swift removal
- Produces 1/16" or 1/8" joint spacing
- May be combined with regular tile spacers for wider joints - up to 1/4"
- Wedges are reusable

Benefits of Cork Trowels

A favorite of installers, trowels with cork handles harness the natural moisture repellent properties of cork to provide a secure grip even with wet hands. Naturally ergonomic, cork handles contribute to minimize fatigue and are easy to cleanup.

UNDERLAYMENTS

Natural Cork Sheets

- Reduces sound transmission from both the surface of a floor as well as through the floor to living spaces below
- Use under ceramic tile, stone, marble, engineered hardwood and laminate floors
- Acts as a crack isolation membrane that resists transfer of stress cracks from subfloor through to flooring surfaces
- Reduces thermal transmission, increasing the effectiveness of floor heating systems
- Each sheet: 2' x 3'

72025 2.5 mm Sheets - 696 sq. ft./case, (116/cs)

Aquabar® "B" Moisture Vapor Barrier

- Sub-floor barrier helps prevent buckling, cupping and cracking
- Ideal for interior installations of: ceramic, porcelain or stone over cement board, plywood or concrete; and, finished or unfinished wood floors over plywood or concrete

70-195 Aquabar "B" Moisture vapor Barrier - 500 sq. ft. roll, 36" x 167'

* IIC measures sound such as moving furniture and walking, STC measures sound such as voices and television. Minimum sound rating required by most building codes and architects is 50. Δ Delta Rating is the only true measurement of sound reduction from a product (not a floor assembly) in the industry.

Cork Plus

- Constructed of natural cork and recycled EVA foam, making it more flexible and less prone to breakage than standard cork underlayment
- Acoustical sound control under ceramic tile and stone
- Enhances stress crack suppression
- Reduces thermal transmission, increasing effectiveness of floor heating systems
- Can also be used under laminate and floating floors
- Easy to install on and above grade in both glue-down and floating floor installations

Benefits of Cork Underlayment

A staple in green building, cork offers superior durability, is impermeable, resistant to mold, mildew, and termites.

A natural insulator, cork is fire resistant, and provides unrivalled noise reduction properties.

Exceptional as a flooring underlayment, cork assists with stress crack prevention, supports home insulation, and absorbs vibrations and footfalls, trapping the sound and reducing the volume.

* IIC measures sound such as moving furniture and walking, STC measures sound such as voices and television. Minimum sound rating required by most building codes and architects is 50. Δ Delta Rating is the only true measurement of sound reduction from a product (not a floor assembly) in the industry.

About California Proposition 65

Proposition 65 is a California regulatory law that requires businesses to notify California consumers about specific chemicals in the products they purchase so they can make informed decisions about protecting themselves from exposure to these chemicals. This law requires companies to properly label products that contain chemical(s) above certain threshold levels.

As part of Q.E.P. Co. Inc.'s continued best business practice and compliance program, we comply with Proposition 65 warning requirements and provide product-associated warnings. We are dedicated to meeting consumer product safety requirements applicable to our products and strive to provide high quality and safe products.

For more information on California Proposition 65, go to www.P65Warnings.ca.gov.

*Prop 65 - 1. **⚠ WARNING:** This product can expose you to chemicals including DEHP which is known to the State of California to cause cancer, birth defects or other reproductive harm.

*Prop 65 - 2. **⚠ WARNING:** This product can expose you to chemicals including N, N-Dimethylformamide, which is known to the State of California to cause cancer, birth defects and other reproductive harm.
