Fungicide - used to protect and strengthen to defend lawn health in disease shade

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. People and pets may re-enter the treated area after application. This package applies 3.425 lbs. of product per 1,000 sq. ft.

1 PREP

MOW
If grass is tall enough to touch bottom of the spreader, give it a quick cut.

2 APPLY

SPREAD
Fill and set spreader according to the table below. For best results use a Scott's® Spreader. When you apply walk at a steady pace.

3 CLEAN-UP

SWEEP
Sweep any product that lands on the driveway, sidewalk or street back into your lawn.

SPREADER TYPE	SETTING
SCOTT'S® ELITE SPREADER	4
SCOTT'S® BROADCAST/ ROTARY SPREADER	3 1/4
SCOTT'S® DROP SPREADER	6
SCOTT'S® WIZZ SPREADER	4
SCOTT'S® WHEEL SPREADER	4

- Use this product on home lawns to prevent disease before it appears and/or to control disease at the first sign of disease.
- Uniform coverage is necessary to provide the most effective level of control.
- Water the treated area for 15-20 minutes after application.
- Apply product prior to disease symptoms when conditions are favorable for disease and/or stressful periods.
- This product can be applied after seeding or at seed germination.
- Product can be reapplied after four weeks (28 days).
- When used as directed, the product is safe to the lawn and controls the diseases listed. Consult your local Cooperative Extension Service office or your state's land grant university for assistance with lawn disease identification and specific fungicide timing in your area to control lawn diseases.
